ANNUAL REPORT

BOARD OF SELECTMEN

The year 1990 began with turmoil as a private developer proposed to operate a Federal Detention Facility at the ATT site on Bridge Street. Mr. James McDonald, representing Florence/Atlantic Corp. proposed a 300-400 bed Detention Center for the U.S. Federal Marshals. Prisoners who had committed Federal crimes would be held while being tried in Boston or Providence. Four or more other sites were proposed in Rhode Island and Southeastern Massachusetts. Included among these sites was a floating jail in New Bedford Harbor. Numerous meetings and rallies were held in opposition to this proposed Detention Center. With the strong opposition of the community and the unanimous opposition of the Board of Selectmen and other Town Boards, the developer withdrew his proposal in early February.

This event was followed by the continuing financial problems of the State of Massachusetts. The Town has experienced two years of local aid cutbacks and the late payment of Cherry Sheet monies owed Fairhaven. Belt tightening has been evident in each department with the elimination of personnel through attrition or layoffs. Budget preparation has been made difficult as it has been impossible to accurately estimate anticipated revenue. Each Town budget has been level funded or reduced to offset this lack of revenue.

The Town has been experiencing the stoppage of reimbursement payments for the Wastewater Treatment Plant Expansion and other projects. The inability of the State to make payments in a timely manner has resulted in the Town borrowing money to pay engineering costs and contractors.

The Annual Town Election in April resulted in Mr. Patrick J. Mullen being elected to the Board of Selectmen replacing Mr. Kenneth Wood who did not seek reelection.

The Annual Town Meeting on May 5, 1990 was one of the quickest in memory as it was completed on the same day. With limited available revenue, the recommendations of the Finance Committee were followed with only a few small variations. Concerns have been raised that the effectiveness of Town Meeting has been limited due to the level funding or reduction in Town Budgets. Capital improvements have been eliminated or postponed.

During the late Spring, the Town witnessed the opening of the Fairhaven Commons Mall with A&P Saving Center Food Stores as the main anchor store. Combined with this project was the widening of Bridge Street from Route 240 to Alden Road and Alden Road from Bridge Street to Route 6. These road and traffic light improvements were paid for by the developer to provide residents with easier access. Late in the Fall, Sconticut Square opened at Sconticut Neck Road and Route 6. With the downward turn in the State Economy, the Town now has numerous vacant store spaces at the malls throughout Fairhaven.

The Summer brought the completion of the Expansion of the Wastewater Treatment Plant. This \$18 Million dollar project was completed with a dedication ceremony held on July 27, 1990. The Wastewater Treatment Plant was expanded from 2.1 MGD to 5.0 MGD and will serve the needs of Fairhaven for the next twenty years. The Town should be able to handle and treat all flows including rain events.

In conjunction with this project was the completion of the Sewer Rehabilitation Program. This program resulted in the sealing of numerous leaks, replacement of cracked pipes and repairs to approximately 100 manholes. With the completion of this project, millions of gallons of groundwater have been eliminated from the sewer system.

Residents in East Fairhaven from Gellette Road to the Mattapoisett Line were allowed to tie into the new sewer mains extended to service the streets on both sides of Route 6. This \$2.3 Million project also provided drainage improvements and complete reconstruction and resurfacing of roadways.

During the past three (3) years the Town has been fortunate in obtaining more than \$16 Million in State and Federal grants to fund these projects. While it has been unfortunate that the State has been unable to meet their reimbursement payments in a timely manner, costing the Town substantial interest charges for borrowing, it should be remembered that no additional grant programs will be available in the future.

The Town began a Recycling Program on October 20, 1990 at the Sanitary Landfill. Presently the Town is collecting aluminum, tin, clear and colored glass, Plastic #1, #2 and #6, whitegoods, newspaper and cardboard. This recycling program has been the efforts of a group of 20 volunteers (a mixture of Town officials and residents.) This committee has done an excellent job and needs the continued support of the residents of Fairhaven. Along with the recycling of trash, the Town also began a leaf composting program. Leaves were collected curbside for eight (8) weeks. Anyone wishing to participate during the year can bring their leaves and grass clippings to the landfill on Bridge Street.

It has been evident during 1990 that Fairhaven is changing. With the economic slowdown in the State, housing starts and developments have stopped. Unemployment has risen to 10% in the New Bedford area and many businesses have been closed. Revenues have been decreasing and Town Government will require additional belt tightening. The Selectmen need your input and support in making the right decisions for the betterment of the residents of Fairhaven. It is important to realize that you can make a difference. If you are willing to serve or participate on a committee, please contact the Selectmen's Office.

Respectfully Submitted,

Samuel D. Freitas
Joseph Cataldo, Jr.
Patrick Mullen

BOARD OF ASSESSORS

The year 1990 began with the appointment of Paul A. Matheson, III as my assistant. Paul was very quickly indoctrinated into the pressures, time constraints and stress associated with the Assessors Office. The Part-time Board indicated in June that they did not wish to be re-appointed. In July, Mary Ann Hawk and Delfino Garcia were appointed as the new Part-time Assessors. Wendy Mandeville was rehired as a temporary Senior Clerk and Patricia Savoie, former Dartmouth Assessor, was once again called upon to assist while a clerk in the office was on Medical Leave.

The In-House Revaluation was finalized in February and the Department of Revenue was notified that we were ready for Review for Certification. By Mid-March the DOR had completed their Review. The values were Certified, the Classification Hearing was held, the Tax Rate was set and approved, and Fiscal Year 1990 actual bills were mailed on April 28, 1990.

The hearing and abatement process began. Approximately 1000 taxpayers filed applications for abatement by the May 31, 1990 deadline. By August 31st the Board had acted on all applications. Hearings were granted to allow taxpayers, who were aggrieved by the Board's decisions, to provide documentation in support of their claims. This process was completed in Mid-December.

For a Fiscal Year 1990 Bill, Market Values, Income Data, and Cost Tables for 1988 are utilized to arrive at a value for the State Mandated Assessment Date of January 1, 1989. Unfortunately, during 1990, the Market was beginning a decline. In the past, when the bills were issued, the Market was continuing to rise.

The Board presently is reviewing 1989 data in order to arrive at values for the Fiscal 1991 Bills. I do not foresee a decline in valuations for the Fiscal 1991 values. Current analysis indicates that we are at 100%. The decline in values would be reflected on the Fiscal 1992 Values.

Taxpayers should keep in mind, if everyone is assessed at 100%, everyone is paying their fair share. When valuations decline, the Tax Rate increases. The Factor is Fair and Equitable Assessments for all properties.

I would like to take a moment to thank the Office Staff. The In-House Revaluation, the Abatement Process and Hearings also generated a tremendous amount of additional work on the entire staff, above and beyond the normal routine work. I know that without their support, encouragement and extra effort, In-House Revaluation could not have happened.

Respectfully Submitted,

Jeanne C. Reedy, Chairman
Board of Assessors

BOARD OF PUBLIC WORKS

The Fairhaven Board of Public Works wishes to thank the employees of the Water, Highway, Park and Sewer Departments for their efforts.

The construction of the 5.0 Million gallon a day Sewage Treatment Plant has been completed. The Plant is designed to handle a sewered population of 18,600 and a pollution reduction of 90%. The Plant consists of Preliminary Screening and Clarification followed by Secondary Treatment, consisting of conventional Activated Sludge. Final Clarification and Disinfection is attained by means of chlorination. A Flow Equalization Tank was constructed for storm flows.

Sewer expansion for the East Fairhaven, Narragansett Boulevard and Boston Hill areas has been completed. We have 141 sewer services connected which represents 52% of all connections.

The Sewer Rehabilitation Project has been completed. This project consisted of grouting open joints in sewer pipes, excavation and replacement of pipes and refinishing of manholes. This will reduce the amount of groundwater which enters the sewer system thus allowing more capacity for sewage in the collection system and the Treatment Plant.

The Water Rehabilitation Project which encompassed the area from Washington Street on the north, Church Street on the south, Laurel Street on the east and Main Street on the west, is 95% complete. All cement lining, gate boxes and fire hydrants have been installed. The bituminous hot mix patchwork is all that remains to be done in this Phase.

We have started up the Leaf Composting Operation at the Recycle Center. This fall, we had door to door collection of leaves and a drop-off area is located at the site.

Construction of the Transfer Station was delayed to allow changes for recycling. The changes were incorporated within the allotted allocation. Presently, we are recycling plastics, glass, aluminum, tin, white metals, newsprint and cardboard. We will be recycling lead batteries, copper, brass and other items in the near future. The Recycle Center is manned by Landfill personnel as well as volunteers from the Recycle Group and other community groups, as well as individuals. The Board of Public Works would like to thank the volunteers for their participation. We also would like to thank the Recycle Committee for their assistance in getting the Recycle Program up and going, the manpower to operate it and the scheduling of volunteers. The Recycle Center is located on Bridge Street at the site of the Landfill.

The board of Public Works encourages everyone to recycle. The more we recycle, the less we landfill or send to SEMASS, thus reducing the wastestream.

The following streets were reconstructed by Board of Public Works employees: Daniel Street, Pleasant Street from South Street to Cedar Street, Church Street from Pleasant Street

to Laurel Street, Taber Street from Cherry Street to the dead end, a 2,500' section of New Boston Road and Boston Hill Road.

The Board of Public Works has continued street maintenance by crack sealing and slurry sealing streets. There still remain many streets which need reconstruction, drainage, curbsings, water and sewer.

The last few years, road reconstruction has suffered because of the lack of funds. This cannot continue because the cost per mile for reconstruction is increasing yearly and we are allocated less monies. Thus, we are unable to complete as many streets as is warranted. If this type of management continues by the Town Meeting the roadways of Fairhaven will deteriorate to a point which we could not afford.

The Board of Public Works is also concerned with the structural condition of the 80+ year old Water Tower on Route 6. The 1/2 million gallon Tower has severe metal fatigue throughout the support beams and crossmembers. The Tower should be replaced or taken out of service. Water pressure in the south end of Town is dependent on this Tower.

The Board of Public Works would like to thank each resident of Fairhven for their patience and cooperation during this past year.

Respectfully submitted,

Victor Oliveira, Jr. Chairman

Manuel Correira, Vice-Chairman

David Szeliga, Clerk

Robert D. Cormier

Antone Medeiros

Alfred F. Raphael, Acting Superintendent

REPORT OF THE CIVIL DEFENSE

1990 was another year of continued improvement and involvement for Fairhaven Civil Defense. Improvements include a 5/4 ton 4 wheel drive Dodge Pickup purchased from the U.S. Army to replace our primary rescue/backup lighting truck. The new truck is being prepared for painting and should be fully operational by this report's publication. Though none of our vehicles are new, they represent the best running, best equipped and most attractive selection we have had in many years.

This fall we have also added 10 new members, a banner year for us concerning membership. Over 2,500 hours were logged this year by Civil Defense members in a diversified number of situations: From the Center Green Rest Home and Mullins Freezer Fires to the St. Josephs 10K Road Race, from assisting at traffic accidents to the Memorial Day Parade, from storm watches to the Fairhaven Homecoming Fair, from assisting the Tree Warden with fallen trees and limbs to Fairhaven High Band practices, Fairhaven Civil Defense has been there providing the quality service the town so richly deserves.

We thank all the town departments for their kind cooperation this past year and we look forward to serving you for many more years to come.

Fairhaven Civil Defense
John Rogers Jr., Director

SANITATION DIVISION

We are still placing refuse in the Phase II area of the landfill and will continue to do so in the future. All burnable trash continues to go to SEMASS with any unburnable items being accepted at the landfill.

The Transfer Station has been completed with concrete walls, concrete roll-off area and asphalt driving areas for citizens to leave trash and recyclable items. We are now recycling cardboard, newspaper, many types of glass bottles, plastics, aluminum and metals. A.W. Martin of New Bedford is buying our recyclable items.

The Leaf Composting area is now in full swing with leaves picked up this fall. All the grass area around the Transfer Station and Recycling area is 100% leaf compost from 1989 leaves. The leaves were brought to the area in rubbish packers, dump trucks, and cars from private citizens. The usable loam material left from the leaves will be used for Town Projects throughout the Town.

The 1984 Caterpillar 816B Compactor is in good running condition. The leased 1989 Caterpillar 963 Tract Loader is in fine running condition.

The refuse contractor, Oxford Disposal, continues to do a fine job and receives good reports from the public.

I would like to thank the men at the landfill for their cooperation and a job well done.

Respectfully submitted,

John B. Harrison
Highway Superintendent

PARK DIVISION

The Park Department has been busy this year with repairs and maintenance work done to our parks, beaches, recreation areas and Town Memorials.

This spring, the Park crew assisted the Highway Department at the West Island Town Beach Parking Lot by putting down crushed gravel and grading the parking area. This helped to reduce the water problem in the parking area. The Commonwealth of Massachusetts Department of Natural Resources sent a beach cleaning machine to the West Island Town Beach and picked up debris and seaweed from the winter storms. This enabled the lifeguards to help keep the beach free from any large buildups of seaweed. The West Island Toilet Trailer continues to work well and will be painted and have minor work done this winter.

In our Park Areas the crew repaired all fencing and ballfield backstops. Many fence areas should be completely replaced. Park Buildings have had roofs repaired as vandals continue to pull the shingles from them.

All the ballfields were weeded and graded to playable condition. The basketball hoops and backboards at Livesey Park will be rebuilt this winter as vandals destroyed them this summer.

I would like to thank the men of the Park Department for their cooperation and a job well done.

Respectfully submitted,

John B. Harrison
Superintendent

TOWN PLANNER

The Town Planner is now closing out his tenure in the position and by the time this report is circulated to the Town Meeting members will have retired from the position, a position which he believes will be phased out at that time.

The Planner will be terminating the position on which he considers a low point as conditions with the current Town Management have been very unsatisfactory, due primarily to the factors resulting from the dual relationship and authority under which the position exists. It is hoped that Town Meeting will see fit to eliminate this factor, or eliminate the position as it currently functions.

The Planner feels that many pluses have taken place during the period of his activity. The Town valuation has increased from approximately \$20 million to over 1 billion, a jump of 50 times, although some valuations composing this increase are questionable. No attempt is being made here to enumerate all the development items that have contributed to this condition — nor is any comment being made as to whether or not it is good or bad for the eventual well being of the Community or its inhabitants. When the Planner came aboard in 1972 the desire was for development and in that respect the object was achieved, along with the necessary infrastructural requirements that the Community needed and desired.

The Planner enjoyed working with many fine people both locally and regionally, as these activities went forward.

With all good achievements, also come disappointments, and these appear to stand out:

The ATT pullout from its 50 million dollar investment and its potential effect on the Community.

The failure to get the Atlas Tack complex into a viable tax producing facility and the elimination of its deteriorating effect on its neighborhood.

The fact that David Drown Boulevard has not been extended into the Town's center.

The fact that the waterfront area has not been developed to any where near its possible maximum potential, being limited by its shallow land depth, lack of dredging, and environmental conditions. This also affects the northern area known as Marsh Island, now a wasted waterfront potential.

The lack of one way streets in Fairhaven's center and the rotary traffic pattern that could be activated at Benoit Square.

One with the most meaningful importance for the maintenance of Fairhaven's distinctive character and quality — the lack of implementation of the Communities Historic Districts and the present lack of any apparent effort to achieve this purpose.

Overall the Planner has enjoyed this phase of his employment, it has been a tremendous experience, an experience he expects and hopes to continue as a concerned citizen of this fine Community, for a considerable period.

Upon retirement, the Planner will supply his opinions in detail on various aspects of Fairhaven's operation and how he envisions its future and views as to how objectives should be achieved.

Respectfully submitted,

Nicholas F. Tangney,
Town Planner of Fairhaven

THE MILLICENT LIBRARY ANNUAL REPORT 1990

PEOPLE

Two new trustees joined us this year: Alice Rapp and Bernard Roderick. We were all saddened by the passing of one of our former trustees and a long time friend of the Library, Everett Allen.

Donald Freitas, our new custodian, moved to Florida and was replaced by Stephen Foster, who has been doing a great job of keeping the building and grounds in order. Another man also joined the staff this year, Robert Gonsalves, who is that all-important person who puts the books away.

Perhaps the biggest news in the people department this year was the retirement of two veteran staff members—Helen Freitas and Ruth Barnes. Both of these ladies served the Library and Town ably and faithfully for many years. There is not enough room in this report to adequately express our commendation and gratitude to them for their lifetimes of loyalty and hard work.

These retirements necessitated the shuffling of duties among our remaining staff members. Mary Jane Richard took over the formidable task of developing and expanding the fiction collection, at which she is doing very admirably. Jacqueline Newton has been able to spend more time on children's programs (see report below) and has been bringing in the expertise she is acquiring in her studies towards her Master's degree.

The computer work is still moving along, though more in the background this year. A small core of volunteers has been chipping away at getting the collection "linked" into the automated catalog. Juanita Walker has been directing these operations, as well as taking on the task of developing the Young Adult collection, nonfiction, and reference.

At the circulation desk, Doreen Skidmore has been involved with public service, overdue, and interlibrary loan — all very vital to our success. Ann Richard, Stack Supervisor, has been in charge of the neverending task of keeping the books shelved and in order, as well as doing desk and reference duty. Jeanne Adshead has taken on the job of magazine inputting in addition to regular duties.

It seems that people have become more interested in historical research lately, and Debbie Charpentier has been helping a great number of people, both local and out of town, to look up their houses and ancestors. Her common sense, patience, and careful historical methods have been of great value in her research and her other duties. These qualities have also been evident in her involvement in trying to improve the automated system's service to the public.

Our long time bookkeeper, Gertrude Stiles, who has worked at the library at various times since the 1920's, is still keeping our financial house in order, in close cooperation with the director and the treasurer.

HISTORICAL DEPT;

Mabel Hoyle Knipe, Dorothea Paull, and Ernestine Locke, the self-styled "historical moles," all turned their considerable energies in 1990 into researching old buildings, particularly those in the center of town.

The fruit of this labor was a map of what the center looked like before the Rogers buildings. This map was then converted to a useful and beautiful work of art by Arthur Moniz, financed by a grant from the Massachusetts Arts Lottery. The completion of this project coincided with the celebration of the sesquicentennial of Rogers' birth.

The "moles" also handled many requests for information throughout the year. A welcome source of work for them has been the donation of bags and boxes full of scrapbooks and photographs which have come from all over the country. When identified and indexed, these old pictures and articles can be preserved and accessed for future historians.

PROGRAMS

Thursday morning lectures were abandoned, at least temporarily, because of the sparse attendance over the past several years. Instead, we tried sponsoring field trips to places not usually visited by travel agency bus trips and that would be of special interest to bibliophiles in Fairhaven. These trips were offered at cost and proved to be very successful. The first journey was to Planting Fields, the Long Island home of Henry Rogers' daughter, Mai and her second husband, Benjamin Coe. Our Rogers connection got us an extra-special welcome and tour from the curators of the estate. The second trip was to the Hartford home of Rogers' friend, Mark Twain. This trip, too, was a sell-out and went very smoothly.

The single lecture program we kept was the ever-popular showing of the film, "A Child's Christmas in Wales," preceded by a reading of the poem by Dorothea Paull. This has become as much a part of the Millicent Library as the books and art works.

CHILDREN'S SERVICES REPORT — Jacqueline R. Newton, Children's Librarian

A big ongoing project has been to consolidate the books from the retired bookmobile with the children's books in the main library. The circulating collection has been completely linked with the online database of the subregional network.

The pre-school Story Hour program which runs on a weekly basis during the school year was enjoyed by 46 children.

Ten summer and school vacation programs were provided for children with a total attendance of about 675 people.

Fourteen field trips were hosted for scouts and school groups who were given tours focusing on the library's history, art, and services.

Once again, the library took part in the town-wide Books and Beyond Read-a-thon by visiting the pre-schools and elementary schools and offering participation in the program to pre-school children.

The Early Childhood Advisory Council held a program with the Children's Librarian about reading with young children. Holiday stories were shared with the children of the community via Cable TV.

STATISTICS

The circulation for 1990 was 84,137. The total of Fairhaven patrons entered into our new automated system is now 4,320—adults 2,907, children 1,413. A complete inventory of our collection is not yet ready—we are finding that a lot of books listed under the old system are, in fact, missing. When our "linking" is completed, we will know for sure how many volumes we actually have. It is probably safe to estimate that our collection numbers about 70,000 volumes.

With the new automated system, area libraries have been sharing their resources much more easily than in the past. Network-wide holds are placed immediately and books are usually sent over the next day. For example, in November of 1990, the Millicent Library borrowed 141 items from area libraries and loaned out 118 to the network. These figures will increase later as more libraries join the system.

REPORT OF THE COUNCIL ON AGING

During the year 1990 the Council on Aging has seen many changes, one unfortunate but others promising for the future.

Due to the serious illness of Director Doris Green, Ms. Betty Lacerda was appointed Acting Director in February 1990. Regretfully, Mrs. Green passed away in June 1990. The Council acknowledges her many accomplishments and dedication to her ten years as director. Ms. Lacerda was appointed Director in September 1990.

An open house was held in October 1990 which was dedicated to the past directors of the Council on Aging. A lovely clock, purchased through generous donations, has been added to the hall of the senior center. Framed photos and memoriam plaques of Malcolm Cummings and Doris Green are placed alongside the new clock. Donations in their memory have also allowed us to newly landscape the front of the building.

New services to Fairhaven seniors have been implemented during the latter part of 1990 including:

Medical Escort Service
Senior Aerobics

Reassurance Program
Walking Club and Poker Club

Our Annual Report to the Executive Office of Elder Affairs shows a total of 69,571 services rendered to our seniors. Total number of unduplicated elders serviced through our office was 3,041. Other programs include:

Legal Assistance
Social Day Care Program
Food Commodities
Grocery Shopping
Nutrition Lunches
Greater Fairhaven A.A.R.P.

Intergenerational Programs
SHINE Program
Tax Assistance
Fuel Assistance
Senior Social Club
Flu Shots

Visit Nurse Association (Blood Pressure and Counselling)
Free cataract and glaucoma screening every two months by Eye Health Associates

Approximately 65 seniors enjoy a nutritious lunch at the senior center five days a week. Meals on Wheels are delivered to approximately 80 seniors five days a week by volunteers who receive a stipend.

Ms. Evelyn Correira was appointed as Social Day Care Director in September 1990. This program continues to grow with a total of 23 clients now enrolled and a total of 66 clients during the year. Volunteer with the Social Day Care Program, Bertha Rose, is now a member of the Elder Service Corp. We are fortunate to have dedicated volunteers for this program to help supervise activities: Grace Portas, Audrey Gillium, Joan Benoit, and Alice Mailloux.

During this year we have acquired five employees through the Senior Aide Program to assist at the Council on Aging:

Gladys Correia-Outreach Aide
Evangeline Baptiste-Office Aide
Pauline Waclawik-Nutrition Program

Helen Cadden-Adult Day Care Aide
Mary Gobeille-Nutrition Program

The following are grants received during the year 1990:

Coastline Elderly Services, Inc — Transportation — Title IIIB:

	\$1,366.00	-	1989-1990
	\$1,000.00	-	1990-1991
Formula Grant	-	\$7,041.00	-for purchase of vehicle to transport seniors
State Grant	-	\$6,836.00	-office renovations (newly needed flooring)

The Council would like to thank the following people for their help during the year: The Board of Public Works Garage for their prompt repairs to our senior bus, The Greater Fairhaven A.A.R.P. for their lovely Christmas Party for the Social Day Care clients. To all those who have generously donated to the Gift Account for gasoline and bus repairs.

We also wholeheartedly thank all our volunteers of different programs. Our Annual Report to the State shows approximately 157 hours per week of services by volunteers, senior aides and Elder Service Corp. totaling approximately \$122,988.00 per year. Without these loyal individuals, our programs would indeed suffer.

In 1990 we welcomed a new member to our Council — Mr. Joseph Begnoche, a dedicated volunteer to numerous programs throughout the community. Mr. Begnoche replaced Betty Lacerda as Council Member.

Our future goal is to continue to provide the best possible services to all seniors, and our Director is hard at work to implement any needed programs to do so.

Our office is open from 8:00 a.m. to 4:00 p.m., Monday through Friday, and seniors are encouraged to stop in and visit.

Respectfully submitted,
Virginia A. Carey, Chairperson
John E. Keary
Pedro H. Monterio
Doris P. Blanchard
Dr. George Walmsley
Joan Benoit
Joseph Begnoche
Betty S. Lacerda - Director

FAIRHAVEN HISTORICAL COMMISSION

The Commission has spent a busy and successful 1990 continuing the restoration and stabilization of several historic structures along with work on several other projects which have come before us. We thank the many town's people who have supported us in these projects and hope for their continued support in 1991.

As 1990 came to a close, the final phase of the restoration of the exterior of the Fairhaven Academy was begun. This work involved the provision of new clapboard siding on the tower and the northeast rear wall. As expected, the initial demolition work uncovered serious tower structural problems which are currently being addressed. The cupola and weathervane were removed by crane to facilitate this structural work. Future plans call for the completion of exterior work on the tower temporarily without the cupola. This section, along with the weathervane, will be reinstalled after being totally rebuilt when funds are available. Work is being financed with town funds and private funds collected by the Fairhaven Historical Society, Inc.

The Commission hopes to update the electrical service and possibly provide a heating system for this building in the future. It is hoped that this fine old building can become a proper museum for our town's rich history.

During 1990, a new burglar alarm system was installed in the Academy. Repairs were also made to the fire alarm system. Work continues on adding this structure to the High School on the Federal Historic Register.

The long dormant house plaque program was reestablished with stringent guidelines as to historic evidence required to be submitted before an official plaque would be allowed. There has been a renewed interest in this program.

The Old School House on North Street and the Old Fire House on Washington Street received much needed coats of paint and minor exterior restoration.

As part of the annual Fairhaven Homecoming Fair this past summer, the Commission planned and presented two well received programs. As a tribute to our former member and dear friend, Milton Delano, a collage of his art works was framed and presented to the town. It will hang, for the enjoyment of all, in the Town Hall foyer. A tribute was also planned and produced by member Robert Hamilton, commemorating the 150th anniversary of the birth of Henry Huttleston Rogers. A brief reenactment of the 1893 Town Hall dedication starred a local actor as guest of honor, Mark Twain, with local townspeople playing the parts of Mr. and Mrs. Rogers.

At the invitation of a concerned member of the High School Alumni Restoration Committee, the Commission toured the High School accompanied by the Principal and Superintendent. Several items of concern were noted and will be attended to. Principal

among these was evidence of damage from the inside to stained glass windows in each of the main stairs.

Due to other pressing financial matters, it was decided not to publish the annual calendar this year.

Commission members assisted the Library staff and others in hosting the Melville Society program celebrating the anniversary of Herman Melville's departure from our port on a whaleship. This well attended event was held on January 3, 1991.

It was with much regret that the Commission accepted the resignation of Louis Veilleux, our long time member and friend. Louis' interest in our town, particularly in all things historic, is legendary. He will be greatly missed.

DEPARTMENT OF NATURAL RESOURCES

1990 started out as just an average year, the sale of licenses, amount of shellfish harvested and the amount of water closed due to contamination. 1991 is already looking up thanks to the hard work of Pat Fowle (Board of Health) and Frank Gemarno (DMF). They have spent a lot of their own time to assist me in opening areas that have been closed for years. This year is looking great for oysters, clams and quahogs.

The Shellfish Advisory Committee, along with myself, has established some new rules and regulations for shellfishing. These new rules and regulations will help limit the amount of shellfish taken. With the help of my deputies and the shellfishermen of this town, I am sure we'll see an increase in the quantity of shellfish in the next few years.

The permit and licenses list is as follows:

756	Resident permits \$6.00	\$4,500.00
12	Replacements \$1.00	12.00
10	Non Resident Permits \$75.00	750.00
44	Commercial Licenses \$125.00	5,500.00
3	Replacements \$5.00	15.00
3	Student Licenses \$60.00	180.00
7	Quahogs Dredge Boats \$300.00	2,100.00
2	Rental Permits \$25.00	50.00
123	Over Age 70 Free	00.00
Total	\$13,107.00

Thomas Allaire
Natural Resource Officer

REPORT OF THE BOARD OF APPEALS

The Fairhaven Board of Appeals held 14 meetings during the year 1990 and acted on 107 petitions. 70 were granted, 14 were denied, 16 postponed and 7 withdrew without prejudice. All were adjudicated with great concern for the Town's well-being and with respect for each petitioner's rights.

Roland N. Seguin

Chairman

BUILDING DEPARTMENT

The year, 1990, was a continuation of the 1989 statewide building slowdown. Last year's new mall and plaza have slowly been filling their vacant spots. Small businesses still found the ability to emerge during this period of decline. This was the year that multi-family dwellings (4 or more units) were inspected, for the first time, since their construction. Woodstove permits were on an increase due to the rising cost of home heating oil.

	No. of Permits	Estimated Cost
Residential Structures	23	\$1,833,119.00
Commercial Structures	5	2,103,000.00
Additions and Alterations		
Residential	110	1,482,458.00
Commercial	41	717,307.00
Accessory Structures	65	177,574.00
Swimming Pools	34	178,163.00
Wood Stoves, Chimney, etc.	27	42,035.00
Decks	173	243,039.00
Signs	44	151,922.00
Miscellaneous	68	60,785.00
Demolitions	14	13,200.00
TOTAL	604	\$7,002,602.00

	No. of Permits	Fees Collected
Building	604	39,637.00

We wish to note the passing of Carlton Davis, Associate Wire Inspector, whom all in the Building Department shall miss dearly.

ANNUAL REPORT OF THE COMMUNITY NURSE ASSOCIATION

The Community Nurse Association of Fairhaven, Inc. is a private nonprofit visiting nurse association that provides public health nursing to the residents of Fairhaven through a contractual agreement.

We continue to service clients through our health promotion home visits. In 1990, we made 312 visits. These visits were to new mothers, newborns, residents with communicable disease and frail elderly. The majority of our visits are to the elderly. In 1990, 87% of our home visits were made to people 65 years of age or older.

Five childhood immunization clinics were held in 1990 and they continue to be well attended. Three flu clinics were also held with 840 immunizations given.

Geriatric health counseling sessions continue to be well attended. In 1990 we serviced 51 clients through these sessions.

We have enjoyed working with the Board of Health this past year and look forward to the coming year.

FAIRHAVEN HOUSING AUTHORITY

1990

ANNUAL REPORT

The current Board of Commissioners of the Fairhaven Housing Authority are:

Chairman	Walter J. Borowicz	
	4 Coggeshall Street	Term Expires 1995
Vice Chairman	Victor L. Brunette	
	7 Brookview Street	Term Expires 1995
Treasurer	John E. Keary	
	12 John Street	Term Expires 1993
Assistant Treasurer	Robert R. Norris	
	25 Garrison Street	Term Expires 1992
State Appointee	Rev. Robert Thayer	
	11 Fort Street	Term Expires 1995

The Fairhaven Housing Authority holds its Regular Meeting on the second Thursday of the month. The Annual Meeting of the Board is held on the second Thursday in May. At that time the election of officers for the coming year is held.

Presently, the Fairhaven Housing Authority is administering 279 units of Elderly and Handicap and 6 units of Family and Handicap. The developments are:

667-1	Green Meadows	40 Units	Completed in 1966
667-2	Green Meadows	52 Units	Completed in 1971
	(addition)		
667-3	Oxford Terrace	108 Units	Completed in 1976
667-4	Dana Court	55 Units	Completed in 1982
667-5	Anthony Haven	24 Units	Completed in 1989
705-1	Family Housing	6 Units	Completed in 1989

These developments are financed by a grant issued from the Commonwealth of Massachusetts which exercises general supervision over the Authority through the Executive Office of Communities and Development.

During the past year there has been a turn over of twenty-eight (28) apartments. There were nine (9) deaths, seven (7) went into nursing homes, five (5) moved to live with relatives and seven (7) transfers.

The Fairhaven Housing Authority is locally managed by Stanley A. Wojcik, Executive Director and Urania M. Oliveira, Executive Administrative Assistant.

TREE DEPARTMENT

Another busy year has again passed and the constant problem of rotted and diseased trees seems to have gotten worse in the last few years.

During the past year over 25 trees have had to be removed due to deterioration and 20 new Crimson King Maples have been planted in various locations in Town to try and replace some of the ones that were lost. In the Spring of 1991 I will plant another 20 Maple trees to try and help replace some of the lost beauty in our Town due to the removal of some of the old trees.

In December of 1990 several cords of firewood were given away to our Senior Citizens and our needy families.

Our tree trimming program is now in full swing and is going well on a street to street basis.

May I close in saying that the constant care we will be giving to help and preserve our most valuable asset during the coming year, our trees, will be our number one priority.

Respectfully submitted,

Antone Medeiros, Jr.
Tree Warden

VETERANS' SERVICES

The Office of Veterans' Services granted financial assistance to 20 Veterans or widows and their families during 1990 for a total of 26 people. Most of the cases were single unemployed veterans.

Caseload breakdown by period of Service

World War II	6
Korea	2
Vietnam	12

We encourage veterans to make use of the Veterans' Administration Medical Clinic located in the Federal Building in New Bedford whenever possible. Unemployed veterans are also referred to the Job Training and Employment Center (JTEC) in New Bedford for possible retraining.

Due to the state of the economy, it is anticipated that there could be an increase in requests for assistance during the coming year.

Respectfully submitted,

Kenneth M. Wood, Veterans' Agent

POLICE DEPARTMENT

With the Town's and State's financial problems, the year 1990 passed with some difficult challenges to the Police Department. In these difficult times of not having enough money, the increase in crime, the shortage of manpower, the public still expects the same service it is accustomed to receiving. With all of these added burdens, the Department, I am proud to say, fulfilled its obligations with the highest caliber of professionalism.

The Department lost two positions through cut backs this past year. One position to a disability retirement, and the other position to a resignation. With such a bleak future, I do not anticipate these positions being restored. I must say again, as I did in the 1989 report, the Townspeople must make some difficult decision in the way the Town funds the various budgets. We are at a point in time where decisions must be made on priorities.

The Police Department received 10,490 calls for services during the year of 1990, resulting in 817 cases being referred to the Detective Division for further investigations. The Police Department investigated a total of 671 motor vehicle accidents, a decline for the second consecutive year. The 671 accidents are catalogued in the following manner:

Types of Accident —	Fatalities	3
	Personal Injury	207
	Property Damage Only	<u>461</u>
	Total	671

A total of 517 arrests were made in 1990 with an additional 318 warrant arrests, for a combined total of 835 arrest for 1990. The Department also requested 110 additional criminal complaints in other cases, issued 763 citations for motor vehicle violations.

The Detective Division investigated 864 cases which are broken down in the following categories:

Death Investigations	4	Larcenies	342
Sex Crimes	8	Shoplifting	28
A&B Dangerous Weapons	6	Forgery	19
A&B Domestic Abuse	1	Uttering	28
Assault & Battery	4	Narcotic Violations	137
Assault W/I to Rob	4	Breaking & Entering	151
Attempted Suicide	2	B&E into Motor vehicles	52
Armed Robbery	4	Firearms Violation	7
Unarmed Robbery	7	Poss. Burglariious Tools	6
Pipe Bombs	3	Receiving Stolen Property	7
Arsons	5	Miscellaneous Cases	39

During 1990, the Emergency Medical Services Unit (Police Officers on Duty) transported by ambulance a total of 777 patients.

Types of Transports:	Residents, Medical	486
	Residents, M/V Accidents	48
	Residents, other Traumas	91
	Total Residents Transported	<u>625</u>
	Non Residents, Medical	62
	Non Residents, M/V Accidents	61
	Non Residents, other Trauma	29
	Total Non Residents Transported	<u>152</u>

This past year was the first year the Town has ever charged a fee for the use of its ambulance.

Charges for this period were:

Gross Charges	\$93,180.00
Insurances Allowed	\$87,334.00
Total Paid to Date	\$36,583.00
Total Abated	\$9,016.00
Outstanding	\$41,735.00

In conclusion, I would like to thank the members of the Fairhaven Police Department whose duties are getting tougher to perform everyday and the Police Departments of our surrounding communities, the Massachusetts State Police, the Bristol County Sheriff's Department, and the Office of the Bristol County District Attorney. Without their assistance it would have been difficult in apprehending some criminals and solving some cases.

To the Honorable Board of Selectmen, who have shown their support to the Police Department in some very tense and emotional times.

To all of the Boards of The Town of Fairhaven and their employees for their co-operation.

But most of all, I thank You the citizens of The Town of Fairhaven for Your co-operation and Your patience when we had to put your request for assistance on hold to assist someone else or some other act that our immediate response was needed.

Respectfully submitted,

Peter F. Barcellos
Chief of Police

WATER DIVISION

In 1990 we pumped 486,888,630 gallons of water from our Pumping Stations. Forty-five new water services were added to the system. Thirty-two lead street services and twelve galvanized house services were removed and replaced with copper tubing. Six water main breaks and thirty-six house service breaks were worked on by water department personnel.

All fire hydrants were operated by the Fire Department and any mechanical problems reported were corrected. Eleven new hydrants were added to the system and twelve old hydrants were replaced. One hundred-ten old style meters were replaced and sixty-two additional ones were converted to remote readers. 1,400 feet of eight inch ductile water mains were added on Balsam, Almond and Bluepoint Road.

A total of 7,411 feet of water mains were cleaned and cement lined on the following streets: Green Street, Walnut Street, William Street, Center Street, Union Street, Morse Street, Fort Street and Church Street.

I would like to thank my employees and all Town Departments for their cooperation and assistance.

Respectfully submitted,

Edward L. Fortin
Water Superintendent

WATER POLLUTION CONTROL FACILITY AND COLLECTION SYSTEM

This year was a very busy and eventful one for the sewer department. The new Sewage Treatment Plant was completed as well as sewer extension projects for the East Fairhaven/Alden Road areas and sewer line rehabilitation in the center of town. One hundred twenty-seven new services were tied into town sewer of which 9 were businesses and 131 sewer stoppages were handled.

Performance of the new plant was exceptional with average BOD5 and TSS levels of 9 mg/1 and 13.7 mg/1 respectively (state and federal permit levels 30 mg/1), with an average pollutant removal of greater than 90%.

Mattapoissett contributed 49,485,600 gallons of the total 766,850,000 gallons received at the plant this year. In addition 1,505,900 gallons of septic waste from the towns of Fairhaven, Mattapoissett, Rochester, and Freetown were accepted. The Treatment process yielded 520 dry tons of sludge which were disposed of at the Bridge St. Landfill.

I would like to thank my staff for their perseverance during this major transitional time in the department which brought about new and added responsibilities for us all. At these times the importance of a professional, licensed and well trained staff such as ours is most appreciated.

Respectfully submitted,

Linda L. Lima
Sewer Superintendent
Chief Treatment Plant Operator

COMMISSIONERS OF THE SOUTHEASTERN REGIONAL PLANNING AND ECONOMIC DEVELOPMENT DISTRICT

The Southeastern Regional Planning and Economic Development District continued to serve the Town of Fairhaven in 1990. SRPEDD (pronounced sir-ped) is a locally run regional agency serving southeastern Massachusetts dealing with issues being faced by each city and town in the region. The year 1990 was a difficult one for SRPEDD and for all of southeastern Massachusetts. The economy went into decline and all levels of government had to cut back, reducing the services they could provide. At SRPEDD we found more demand than ever for the regional approach to individual city and town problems. And we found more support for certain state government functions to be decentralized to the regional level.

In the past year, representatives of Fairhaven serving on the SRPEDD Commission were Nicholas Tangney representing the Board of Selectmen, and Raymond Fleurent for the Planning Board. The Town's representative on the Joint Transportation Planning Group was Nicholas Tangney and Michael Mendoza as alternate.

Some of the district's more significant accomplishments in 1990 were:

- Completion of the annual Transportation Improvement Program (TIP) and Overall Economic Development Program (OEDP) which set regional priorities on federal and state grants for transportation and economic development projects.
- Staffing of the South Eastern Economic Development (SEED) Corporation, which makes loans to small businesses for expansion. In 1990, SEED approved loans to 7 small businesses in the amount of \$1.3 million. These loans are projected to create 130 jobs and will result in the investment of over \$5 million from private sources.
- SRPEDD continued to provide the planning services for the two regional transit authorities, GATRA and SRTA.
- SRPEDD reviewed the environmental impact of larger development projects in the region to insure that potential harmful impacts will be addressed. This year, we reviewed 43 such projects, commenting on the impact on traffic, water supply, sewage disposal, wetlands, and other development related issues.
- Nine applications for federal and state funds were reviewed to insure consistency with other plans and efficient use of public funds.
- SRPEDD conducted a district wide traffic counting program and maintained a computer file of all available traffic count data for the period 1980 through 1990 throughout the region.

- SRPEDD conducted workshops for local boards on Title V regulations (Health) and revolving accounts for review fees (Planning and others).
- SRPEDD provided assistance to Fairhaven to better manage their annual road improvements programs. Using a computer, road data provided by the towns is analyzed, assigned improvement repairs, and organized in a priority order for roads to be repaired.
- SRPEDD worked throughout 1990 to expedite completion of the Old Colony Line, which will provide MBTA service into the region with a terminus in Lakeville. A 1992 completion date is projected.
- A regional industrial land plan was begun in 1990. The plan will determine if more land for industrial development is needed to meet future growth.
- SRPEDD maintains a computer based Accident Filing System for eleven communities in the region. The service provides for rapid and accurate retrieval of detailed traffic accident information and is useful in identifying high hazard locations. SRPEDD has maintained Fairhaven's accident data since 1988.
- SRPEDD, through a 205(j) water quality grant, worked with the Towns of Acushnet, Rochester, Mattapoisett and Fairhaven to inventory and map all domestic and commercial liquid underground storage tanks.
- SRPEDD has worked with Boards of Health, Wastewater Treatment Plant operators and septage haulers to assess the needs for appropriate septage management strategies for the Buzzards Bay area.

We look forward to serving you in 1991.

PLANNING BOARD ANNUAL REPORT 1990

The Fairhaven Planning Board had its membership enhanced by the appointment of Thomas E. Marnik, who took over the slot vacated by "Red" Medeiros, upon his election to the Board of Public Works.

Much of the Board's activities during this period were absorbed by finishing up requirements for those facilities started previously, as new development activity appears to have slowed due to the present state of the economy. However a certain amount of activity continues for land split up, sub-division and site plan functions, denoting the fact that there will be renewed pressure when warranted.

In response to perceived Townspeople's attitudes regarding the Town's Zoning By-Laws and desire for clarification of them, the Board formed a Sub-Committee of its members for the purpose of doing so. The Board feels that this function is one of the duties of its membership and that those members have the most experience for the purpose are most aware of the problems surfacing, to make that exercise necessary.

It is intended that these proposed Zoning Regulation changes be presented to Town Meeting for action; an action which is vested in that body.

As the present Town Planner, 90% of whose time is absorbed by this Board's functions, will be retiring prior to the next fiscal year, it is the intention of the Planning Board to present alternative proposals to Town Meeting for the supportive means necessary for the proper functioning of the Board's duties.

It is the Board's hope that its proposals for these alternatives will be supported by the Town Meeting members and that its proposed Zoning modifications, on which some of its members spent much time in formulation, that the resulting products will merit Town Meeting approval.

Respectfully Submitted,

Raymond Fleurent — Chairman
Albert Borges — Vice Chairman
Channing W. Hayward-Clerk
Albert Roderiques
Marinus Vanderpol
John Roderiques, Jr.
Norbert G. Cruz
Thomas E. Marnik
Nicholas F. Tangney — Town Planner and Sec.

FAIRHAVEN FIRE DEPARTMENT

The year 1990 has proven itself to being one of the most dismal in recent fire department history. Over the last three years, this department has found itself marking time in a so-called mode of "level Funding. In actuality, and more realistically, we have been operating at below "level funding". This is due to the fact that product costs, service costs, and material costs have escalated at alarming rates. In our attempts to maintain the status quo, we have been forced to curtail (and in many cases abort) some of our planned equipment purchases as well as a number of comprehensive training programs which by today's standards, are so vital to our very existence.

One of the means by which the effectiveness of a fire department is measured is to examine its training program, along with its ability to effectively handle multiple emergencies simultaneously. However, the Fairhaven Fire department has fallen behind other progressive fire departments because of inadequate funding for proper training (this fact has been noted in previous reports to you). The lack of funding in the area of training has caused a rippling effect throughout the ranks. It has been noted that there appears to be a lack of interest and enthusiasm with regard to morale within the department, much of which must be attributed to the lack of proper training and equipment.

The fiscal constraints which have enshrouded the department and its effectiveness has been generally realized. So much so, that the permanent firefighters who are most adversely affected, and with great understanding, have taken it upon themselves to conduct a number of fund-raising activities by which they have purchased some vitally needed equipment for the department, which is normally the responsibility of the taxpayer. The cooperation and willingness to help in these dark times of fiscal constraints by the permanent firefighters over the last year is one of the reasons we have been able to remain in balance. This in itself, is a benchmark of credit to our permanent force. And equal credit goes to the members of our call-force of firefighters who also have made sacrifices in their own right.

However, despite the voluntary assistance and understanding reflected in our firefighters, we have been forced in some areas to curtail some non-essential services of which this department has so willingly offered over the many years. And unless the fiscal picture brightens in the near future, we will be forced to implement further reduction in non-essential services, despite outcries from the many so-called traditionalists.

It has become increasingly painful for me as Chief of the fire department to watch helplessly as many of our traditions and responsibilities are slowly yet steadily being dismantled before our very eyes. We are fully aware of the fiscal responsibilities that are before us. However, to destroy much of that which has already been achieved over the years just for the sake of arbitrary "cutting" with no agenda of priorities or legal responsibilities in mind, is in my humble opinion, irresponsible at best.

Over the years, I have prided myself as being a strong outspoken critic to those who, in my opinion, have shirked in their responsibilities when their dealings involved town matters. However, as a responsible department head, I shall continue to criticize whenever I feel it warranted against those who are failing their entrusted care.

Regardless of the dark hours before us, I shall continue to take whatever steps are necessary in order to maintain the highest level of fire prevention and protection for the dollars we receive which will always be with the best interests of our citizens in mind.

On still another note of warning, is in the fact that our police and fire station building better known as "headquarters", is in serious need of some concerned repairs. Unless steps are taken soon to correct some of the problems which exist, it will only become more extensive and expensive to correct.

In April 1990, permanent firefighter Joseph Borges retired after 30 years of dedicated service to this community. To firefighter Borges, we thank him and wish him a long and well deserved retirement. Replacing firefighter Borges, is call-firefighter Edward Freitas whom we welcome aboard and extend to him our congratulations and best wishes for a long and safe career with the department.

Also worthy of mention, is to publicly recognize and thank retired Selectman and Fire Engineer Kenneth Wood Jr. for his long-time service to the community not only as a Selectman, but as a Fire Engineer as well.

In closing, I respectfully thank the townspeople for their continued support and a special thanks to those town meeting members who have supported this department over the years.

Commencing on January 1, 1990 and continuing through December 31, 1990, the Fairhaven Fire Department did respond to a total number of 808 calls. Included within this figure are a variety of calls and/or alarms. The following breakdown is hereby offered:

Still Alarms	444
Box Alarms	163
Total Alarm Runs	607

In addition to fire alarm responses, the Fairhaven Fire Department provides a number of additional services such as:

School Building Inspections	14
Quarterly School Drills	28
Nursing Home Quarterly Inspections	20
Inspections of Public Buildings	10
Hurricane Dike Inspections	2
In Service Training Inspections	8

Fire Permits on-site Inspections (eliminated)	0
Plug-Out Fire Alarm Boxes & return on-line	198
Smoke Detector Placements & Final Inspections	480
Oil Burner Installation Inspections	21
L.P. Gas Tank Installation Inspections	8
Underground Tank Installation/Removal Inspections	19
Total Service Runs for the Year 1990	<u>808</u>

In summary, we offer the following totals:

Still Alarm Runs	444
Box Alarm Runs	163
Service Runs	<u>808</u>
Total Runs for the Year 1990	1415

The Board of Fire Engineers would like to thank all of the members of the Department for their dedication and understanding of the many fiscal problems we have endured over this past year. In addition, we would like to thank all of the other departments for their cooperation and assistance.

Respectfully submitted,

Chief Donald R. Bernard
Deputy Chief David L. Crowley

FIRE ALARM DEPARTMENT

The Fire Alarm Department in the year 1990 experienced a very quiet and uneventful year.

The base radio station located at fire headquarters has been upgraded to a new two channel 60 watt base unit. This should enhance our radio transmission capabilities with our apparatus operating at fringe areas of the town.

Since the time of our last report to you, we have added three new master boxes and one street box to our town-wide network of 183 fire alarm boxes. They are:

1. Sconticut Square Plaza
2. Fairhaven Commons Plaza (A&P)
3. Seaport Marina Landing (street box)

As noted in our previous report to you, because of the financial constraints affecting this department, we can no longer accomodate the many outside requests for assistance as we have in the past. Such assistance can only be afforded on a voluntary basis by our personnel.

The Board of Fire Engineers, along with Chief Bernard, would like to thank all departments for their assistance and cooperation throughout the past year.

Respectfully submitted,

Donald R. Bernard
Chief of the Fire Department
for the Board of Fire Engineers:
Joseph Cataldo, Chairman
Samuel Freitas
Patrick Mullen

ANNUAL REPORT BOARD OF HEALTH

The Board of Health has worked well with Building Department, Board of Public Works, concerned State agencies and other Town boards to relieve or correct many problems that we may have had in common. Some excellent examples of this cooperation are the continuing identification of numerous sources of fecal contamination in our coastal waters and bringing unauthorized building alterations and additions into current code conformance.

The Town's recent recycling program is a cooperative effort between many boards and private citizens. The Board of Health in conjunction with the Board of Public Works secured State approval to operate a leaf composting program next to the recycling center. These two programs have been a particularly rewarding and beneficial experience.

The ever present problems of litter and poor property management programs contributed greatly to the workload of the Board of Health. It is through the combined efforts of the Fire Department, Board of Public Works and Selectmen's office that many of these situations were abated.

Our water laboratory has kept pace with the demands for analyses for drinking water and beach water samples. The EPA and State have upgraded the certification requirements for water analyses laboratories, and we have complied. Town meeting in May adopted a Board of Health by-law requiring all licensed marinas to have boat pump out facilities available for their clientele. Participation in the actual usage was slow but gained some increase by late season.

All other mandatory inspections such as housing, hotel/motel, restaurant, retail food stores and such have been performed in a timely manner. The problem of the keeping of animals in areas zoned residential has been particularly difficult this year. The Board has made numerous on-site inspections as the result of complaints received by the office. Court appearances required by the Board of Health Sanitarian have increased due to the increased demand by the Board to mandate that directives of the Board be followed in concern for public health. There is need for a part-time Assistant Sanitarian to assist in handling routine tasks.

The Board of Health still strongly urges the placement of Town sewerage on West Island. Due to fiscal constraints on all levels, this is not in the foreseeable future.

The Board of Health sponsored both flu and immunization clinics, and they were well attended. All of the reported cases of communicable and reported disease have been investigated and handled in accordance with State and Federal Regulations.

The following licenses and permits were issued during the year 1990:

Food Establishments	87	Wells	2
Percolation Tests	16	Funeral Directors	4

Food Handler Certificates	399	Demolition	15
Milk and Cream	83	Removal of Offal	16
Frozen Dessert	6	Animal Permits	18
Catering	1	Bakery	2
Mobile Foods	14	Private Disposal	
Health Spas	2	Systems	23
Massage Licenses	9	Residential Swimming	
Motels	3	Pools	36
Disposal System Installer	13	Public Swimming Pool	1
Burial Permits	111		

Total Receipts: \$12,736.00

ANIMAL INSPECTORS' REPORT

There were 433 dead animals properly disposed of, and 68 quarantines issued due to animal bites. There were many nuisance complaints investigated. Inspections were made at the request of the Board of Health required for the keeping of animals.

Respectfully submitted,

Kevin Barao, Animal Inspector

In conclusion, the Board of Health would like to take this opportunity to thank all those who have assisted in carrying out our programs.

Frank Barcellos, Jr., CHAIRMAN

Edward J. Mee, DDS

George Walmsley, DVM

Patricia B. Fowle, RS, CHO

Teresa M. Darwin

ADMINISTRATIVE ASSISTANT

REPORT OF THE FAIRHAVEN CONSERVATION COMMISSION

The Fairhaven Conservation Commission experienced another busy year.

Activity was at fever pitch because of re-evaluation and delineation of additional wetlands in the town.

The Commission spent numerous hours in the field and on the myriad of different Conservation problems which were solved to the benefit of the town and its residence.

The Chairman of the Conservation Commission would like to thank each member for their dedication and participation in the work of the Commission this past year.

Respectfully submitted,

John T. Ward, Chairman
Marinus Vander Pol, Jr., Vice Chairman
Mariano Moniz

BRISTOL COUNTY MOSQUITO CONTROL PROJECT

On June 30, 1990 the Bristol County Mosquito Control Project completed thirty-one years of service to the cities and towns of Bristol County.

The mosquito control project works year-round in its efforts to reduce mosquito breeding sites and adult mosquito populations. The Project uses several different measures of control in its never ending fight against mosquitos.

Winter Pre-hatch — To treat breeding areas that are accessible only on the ice during the winter months.

Spring and Summer Larviciding — To reduce the emergence of adult mosquitos in areas where mosquito larvae is present.

Catch Basin Treatment — To stop mosquito emergence from rain-filled catch basins and storm drains.

Light Trapping Program — To monitor mosquito populations as to their type and number — a program necessary in encephalitis surveillance. Light trapping of mosquitos is also useful to determine what areas have high mosquito populations and should be sprayed.

Water Management — A year round endeavor to clean and construct mosquito drainage ditches in lowland swamps to reduce their favorability as breeding sites for mosquito larvae.

It is the policy of the Bristol County Mosquito Control Project to use pesticides that are environmentally safe so that the safety of the people and environment are not jeopardized. We use as many of the biological insecticides as are practical with the environmental conditions present in the New England area. We are presently using three different formulations of B.T.I. in our larviciding program.

All of our spray equipment is calibrated periodically in order to insure that dosage rates remain at safe levels but are adequate to reduce mosquito populations. The operators of our spray equipment are state certified pesticide applicators that are required to attend classes on pesticide safety on a yearly basis.

By early spring of 1990 most criteria was in place to indicate the emergence of large broods of mosquitos and the potential for a severe outbreak of Eastern Encephalitis. The Bristol County area again had an exceptionally wet spring with heavy rains filling swamp areas with substantial amounts of water. These areas were to be large breeding sites from eggs that were laid by late season mosquitos from the previous year. As the season progressed, *Culiseta melanura* densities were significantly above the 7 year median. The Eastern virus

was isolated in menanura mosquitos in late June which was the earliest isolations to be found since records have been kept. Each week virus levels climbed at an alarming rate. By early July mosquito control personnel and the State Public Health knew there would be a spill over of virus to human biting mosquitos that would eventually involve horses and humans in Southeastern Mass.

The Bristol County Project began intensifying its ground ULV spraying in areas of high risk in order to protect the people from possible virus carrying mosquitos. All spray crews were put on a 6 day schedule with earlier hours to get as much coverage as possible. During this time plans were being made for a widespread aerial spray program but it was not until August 27th that the planes were finally in the air. We believe that our increased ground spraying during the several weeks before the aerial spray took place prevented anyhuman cases of encephalitis in Bristol County. With the support of its members towns, the Project was able to respond to an extremely dangerous mosquito situation.

The Project answered all requests for spraying along with our regular spraying of known infested areas for a total of 1,605.5 sprayed acres.

During the spring and sumer months a total of 136 catch basins that were found to be breeding were treated. During the fall and winter months a total of 1,350 feet of brush was cut from ditches and 1,150 feet of drainage ditch was reclaimed. Our crawler tractor also dug 4,525 feet of drainage ditch.

I would like to thank the town officials and the people of Fairhaven for their continued support and cooperation and look forward to serving them in the coming year. Should anyone have a question as to what might be done to relieve a mosquito problem in their area, whether it is water management work, treatment of a breeding site, or just having an area checked, please feel free to call our office.

Respectfully submitted,

Alan W. DeCastro
Superintendent

RECREATION COMMISSION

The Fairhaven Recreation Commission provides various programs to our town's people.

The Commission is proud of the participation in our programs. Attendance is continually increasing. We hear many reports from town's people of their enjoyment of our programs.

The summer programs, at the Hastings Middle School, are well attended. Various gym activities, plus weight training and tennis lessons, are offered. In conjunction with the gym program, a "Park" program is offered to our younger participants. This allows creative activities to be taught in the areas of arts and crafts. This same activity was offered, on a daily basis, at the Fairhaven Activity Center. This cooperative effort, between the Recreation Commission and the Activity Center, and the use of their facility has increased our ability to offer more programs to the town's people. Field trips to the Zeiterion Theater were popular and well attended.

Adult programs, at both the middle school and high school gyms, were offered throughout the winter. Youngsters found Saturday mornings at the Hastings gym the place to be with co-educational activities of various natures available to all who attended.

Once again, public skating at Hetland Rink during the February school vacation proved to be very popular.

The Commission continued its help in the operation of the Fairhaven Youth Basketball League.

Volunteer coaches and local sponsors have helped to make this program a success. The number of teams has increased to seven, in the eight to eleven year old league; and there are five teams participating in the senior league, which consists of youngsters from twelve to fourteen years of age.

This fall we have made a great effort to reinstitute a girls basketball league. Through the help of some very interested townspeople, we have a six team league under way, with almost 100 girls participating.

We wish to thank all who have supported our programs, and also the School Department and Activity Center for their cooperation. Without the use of their facilities, we would not be able to carry on our programs.

Hopefully the residents will continue to support our programs. Suggestions are welcomed to enlarge and improve recreation for the Town of Fairhaven.

TOWN OF FAIRHAVEN ANIMAL CONTROL

Restr. to Homes	Dogs Des- troyed	Bites	Dogs Handled Dead & Alive	Dead Animals	Compl. Investi- gations	Animal Inspec- tions	Cats Des- troyed
234	61	68	331	433	1,344	269	109

Truck Miles January 1, 1991: 50,838.2

Dogs Licensed: 1,429

Cash to Town Clerk:

Dog Licenses	\$6,036.00
Board	164.00
Dogs Sold (7)	35.00
	<hr/>
	\$6,235.00

Citations Issued: 245 (x \$25.)

It is my pleasure to report that this year our operating expenses were again below that of revenues generated. Also, fines from citations issued, are now payable directly to the Town Clerk. Previously all citations were collectable only through the District Court. This was often a long process and revenues were slow in return to the town.

I want to thank everyone who donated to the Shelter gift account this past year. We have many friends, old and new, who have supported the Shelter and it is their gifts that insure that there will always be a safe and suitable building to house the animals.

Respectfully submitted,

Kevin Barao; A.C.O.

TOWN CLERK'S ANNUAL REPORT

In 1990 the Town Clerk's Office handled one Town Election, two State Elections and one Annual Town Meeting.

A total of 15,639 persons were picked up in our annual Town Census and our total registered voters was 9110.

A total of 1,433 dogs were registered and through the efforts of the Animal Officer we contacted most delinquent dog owners.

We have implemented a new program for the collection of parking violations. We collected \$14,733.00 on parking fines in 1990 and with the new program this should increase by at least one third.

The total cash turned over to the Treasurer was \$40,057.55 for dog licenses, certified copies, parking, Board of Appeals deposits, dog violations, vitals, business certificates and other miscellaneous items.

We would like to take this opportunity to thank Civil Defense for the help they give us at election time.

Respectfully submitted,

Elaine Rocha, Town Clerk

TOWN COLLECTOR FISCAL 1990 ANNUAL REPORT

1990 FY Real Estate	\$8,471,268.61
1990 FY Personal Property	161,011.01
1989 FY Real Estate	497,670.65
1989 FY Personal Property	9,062.61
Prior to FY 89 Real Estate	146,981.33
Prior to FY 89 Personal Property	7,805.46
Motor Vehicle Excise	795,267.05
Boat Excise	5,806.14
Interest and Fees	160,924.28

School Tuitions	444,025.00
Municipal Lien Certificates (599)	14,975.00
Fairhaven Village	60,777.00

The total of collections during fiscal year 1990 is: \$12,287,649.48

Respectfully submitted,

Carol A. Brandolini
Town Collector

HIGHWAY DIVISION

During the year 1990, the Highway Department has been very busy reconstructing streets, laying drainage lines, cleaning drainage ditches, repairing manholes and catch basins, cold mix patching, grading dirt streets, repairing sidewalks, removing tree stumps, repairing and replacing street signs, grass and brush cutting, street sweeping, sanding and snow plowing, being the major parts of our work.

The Street Reconstruction Program included the following streets:

Church Street — from Pleasant Street to Green Street

Daniel Street — from Alden Road to Main Street

New Boston Road — 2,500 ft. between Vincent's Farm and the Acushnet Town line

Taber Street — from Cherry Street to the end (top coarse only)

Pleasant Street — from South Street to Cedar Street (top coarse only)

Streets receiving partial reconstruction and resurfacing under the resurfacing article were:

Laurel Street — from Doane Street to Phoenix Street

Grinnell Street — from Route 6 to 400' south

These streets had repair work done to the sidewalks, curbs and drainage as needed.

The Highway Department once again used the "Slurry Seal" method on street sealing on Springhill Street, Saratoga Street, Phillip Street, Milton Street, Davis Street, Capeview Street, Haste Street, Harding Road, Chestnut Street, Green Street, Rotch Street and East Morgan Street.

The Department has laid over 1700 ft of new and repaired drain lines with manholes and catch basins.

Potholes are still a serious problem with many streets being patched several times a year. We have placed just over 100 tons of cold mix this year on the streets. However, with the new street reconstruction and resurfacing in the past years the tonnage has dropped significantly. Tonnage for 1989 was 180 tons, 1988 — 220 tons, 1987 — 495 tons and 1986 — 325 tons.

Street sign vandalism continues with just over 200 signs being replaced or repaired.

During our snow removal and sanding operation we used a combination of 1479 tons of sand and salt.

The Sidewalk Participation Program continues to work well. Anyone wishing to have sidewalk or curbing work done at their residence should come to the Board of Public Works Office and fill out an application.

I would like to thank the men of the Highway Department for their cooperation and for doing a fine job with the many different phases of work they must do.

Respectfully submitted,

John B. Harrison
Highway Superintendent

ANNUAL REPORT OF THE SCHOOL COMMITTEE AND SUPERINTENDENT

In compliance with Massachusetts General Laws Chapter 72, Section 4, I am pleased to submit my first Annual Report to the citizens of Fairhaven.

As tradition dictates, statistical and financial information is included to cover the fiscal year 1990. Of greater importance, the narrative portion of this document will attempt to provide the citizens of Fairhaven with a realistic assessment of the status of education in our community.

ONGOING PROGRAMS

Elementary Schools

The elementary schools continue to provide solid, basic instruction to its pupils. All four schools, East Fairhaven, Wood, Oxford, and Rogers School provide the same educational format for all students. It is essential that this be the case insofar as each elementary student in the town be afforded the same opportunity, and equally as important that each elementary student arrive at the middle school having been exposed to, and instructed in, the same curricula.

Currently, the following programs are subscribed to and utilized in the following major areas of curriculum: Reading — Ginn/Whole Language, Mathematics — Addison Wesley, Science — Silver Burdett, Social Studies — Laidlaw. All curriculum offerings are relatively current with the exception of social studies which was “caught in a revolving door” so to speak. This particular program was scheduled for revision in 1987 but due to curriculum development format changes implemented from 1986 to 1989, this area of curriculum was not revised until 1989. Unfortunately this program has not been adopted or implemented due to fiscal constraints. This particular problem is part of a larger issue which will be explored in detail later in this report.

These areas of curriculum are currently being supported in a limited fashion through the utilization of various grants and workshops such as the Dwight David Eisenhower Grant in the areas of math and science, and Whole Language Seminars at Southeastern Massachusetts University.

Computer instruction, together with instruction in health, art, music and physical education, continues to be provided albeit on a reduced basis.

Hastings Middle School

Hastings Middle School continues to function as just that ... a middle school. Although many people in the community continue to refer to it as a junior high school, the concepts are vastly different. The middle school concept is one which is more student oriented as opposed to subject matter oriented, and its instructional mode is predicated on a team concept as opposed to individual subject matter instruction. In this regard, it is felt that the transition period from a junior high to a middle school is nearing its completion.

Despite reductions in staff and the fiscal constraints being experienced by the middle school, the original four person team concept of instruction has been maintained. The staff has remained dedicated to this philosophy/concept and continues to offer solid instruction in all areas of curriculum. The ability of the middle school staff to utilize the team planning approach together with flexible scheduling, enables the middle school student to receive instruction with an emphasis on mastery of basic skills together with an opportunity to experience other areas of curriculum in an exploratory fashion.

Fairhaven High School

This year the high school is in the initial stages of preparing for its annual ten year accreditation review by the New England Association of Schools and Colleges. This evaluation is scheduled to take place in September of 1992.

The staff under the direction of Principal John Newburn, has begun a period of self study which entails the use of regular staff meetings, curriculum days and release time days over a period of time covering the next fifteen to eighteen months.

The evaluation process that a public school must undergo is a threefold one: self-study which is conducted by the local professional staff, evaluation by the visiting team, and the follow-up program carried out by the school to implement the finding of its own self-study and the valid recommendations of visiting team. Continued accreditation requires that the school be reevaluated at least once every ten years.

The steps and guidelines that the school must follow in this process are varied and complex, much too varied and complex to enumerate here. Suffice to say that the prime concern of the evaluation team will be to assess the quality of the educational program at Fairhaven High School in terms of the school's stated philosophy and objectives. This will be a professional appraisal of our local educational setting as it appears to educators from without.

Although this process is just starting, it is appropriate to state here that the results of this study/evaluation may well be affected by issues which will be addressed later in this report under AREAS OF CONCERN.

As set forth in the schools mission statement, Fairhaven High School continues to “provide the opportunity for all students to acquire a sense of community and a foundation of knowledge, skills, behavior and self-esteem that will enable each student to achieve his or her potential”. To that end Fairhaven High School requires that all students enroll in and pass the following subjects as partial fulfillment toward graduation.

English	4 Years
Physical Education	4 Years
History	2 Years (one of which must be United States History)
Mathematics	2 Years
Science	2 Years

For graduation from Fairhaven High School, a student must earn a minimum of 84 credits in addition to passing Basic Skills Minimum Competency Testing.

SPECIAL NEEDS

Fairhaven Public Schools continues to develop needed programs and services for children with special needs. The School Department offers services in all six schools for children who evidence need for speech, hearing, learning disabilities and development disabilities programs. Each special needs student has an Individual Educational Plan which is developed on an annual basis.

In the past ten years, due to state mandated requirements, the percentage increase in budgets for special needs services has more than doubled that of the regular program. With fiscal issues constantly surfacing, the School Department is faced with the continuing dilemma of balancing special education demands with the regular education budget services. This is not an easy task and does create some major concerns among parents in this town.

To date, the FY 1991 approved budget seems to be slightly underfunded to support the magnitude of services required and a shortfall of at least \$25,000 is projected as of December, 1990. Students with low incidence special needs handicaps are provided services in specialized out-of-district facilities. Currently 13 students are enrolled in the following facilities: Bradley Hospital, Providence; Higashi Center, Lexington; Kennedy Donovan Center, New Bedford; New England Center for Autism in Framingham; the Devereaux School in Rutland, MA and the Schwartz Center in New Bedford. Three additional students attend specialized programs in Taunton, New Bedford and Raynham that are not offered in Fairhaven.

Fairhaven Public Schools also is a member of the Southeastern Massachusetts Educational Collaborative (SMEC) which serves selected students. Included are programs for students in need of behavior management services, career exploration activities and early childhood education programs. Currently 24 Fairhaven students are enrolled in the early childhood program, 26 in the career exploration activity and 2 in the behavior management programs.

In an attempt to offer as many services as possible within Fairhaven's schools, and to normalize as much as possible learning activities in which students engage, steps are being taken to mainstream as many students as possible. This type of activity requires decisions for placement on a case by case basis and does involve parental involvement.

The SMEC special needs pre-school program, which is located in Fairhaven, does provide full and half day programs for students between the ages of 3 and 5. This program has continued to address special needs populations at an early age and has enabled many of these students to be integrated into many regular school programs. This is a special program that meets the needs of many students at a crucial time in their development.

The Fairhaven Special Needs Parent Advisory Council remains active. It advises the School Committee and the Special Needs Department on matters related to implementation of state-mandated programs and policies and to special needs requirements and services. The P.A.C. meets monthly at the Hastings Middle School and reviews timely issues that need attention. All parents are invited to participate in their activities.

TESTING

Fairhaven students continue to progress satisfactorily in the various evaluation tests administered by the Massachusetts State Department of Education. During the 1989-90 school year, the annual Basic Skills Test was administered to all students in grade 3, 6, and 9. These tests measure competency in the areas of Reading, Mathematics and Writing Skills.

At the grade 3 level, 96% of the students passed the tests in Reading, Mathematics and Writing. The State average for Reading and Mathematics was 94% and the Writing Skills State average was 93%. Similar results occurred at the grade 9 levels where 94% of the Fairhaven students passed the Reading test in comparison to the State average of 87% and 96% scored above the Mathematics test minimum compared to a State average of 88%. The results in the Writing Skill area was similar with 97% of the students passing the test in comparison to a State average of 93%.

The grade 6 results were not as favorable in the area of Reading where 80% of the students passed the test in comparison to a State average of 88% but the Mathematics and Writing Skills results were at the State average of 92% and 94% respectively.

During the 1990-91 school year, the bi-annual State Assessment Tests, which measure curriculum development results, will be released. This information is expected to reinforce the continued success of students in all grade levels throughout the system.

One other measure of student success in academic activities is in the use of the California Achievement Tests which are administered in grades 2 through 5 and at grades 8 and 10. The results from the testing during the 1989-90 school year indicate above average

class results in the primary areas of Reading, Language, Mathematics, Science and Social Studies.

KINDERGARTEN ENTRY AGE AND SCREENING

During the 1990-91 school year, the Fairhaven School Department implemented a new Kindergarten entry age for students. Students must turn five by September 1 of the year that they enter Kindergarten. During the 1990-91 school year, the School Committee allowed exemptions to the newly introduced policy. There will be no exemptions to the policy for students entering Kindergarten in September, 1991.

RELATED INFORMATION

Categorical revenues continue to be received by and through the school department. Horace Mann grants to teachers totalled \$1,119 in 1990. Dwight D. Eisenhower grant amounted to \$3,450, Block grants totalled \$7,424 and Governor's Alliance Against Drugs grant totalled \$13,441. Finally, an amount of \$3,947 has been received for disposition by School Improvement Councils.

Revenue from categorical Federal programs included the following: P.L. 98-524 (Perkins Vocational Act) \$11,863; P.L. 94-142 (Early Childhood VI-B), \$26,828; Chapter One, \$118,592; P.L. 94-142 (Expanded Services), \$74,907 and P.L. 89-313 (Title I), \$11,700.

ENERGY CONSERVATION

Rising utility costs have been and will continue to be an area of significant concern for municipalities. The School Department has and will continue to take steps that are appropriate in order to limit these rising costs that are a concern to all members of the Fairhaven community. The following are areas whereby we have taken just such measures:

Electric Retrofit

The School Department has entered into an agreement with Commonwealth Electric and Honeywell Inc. that will result in significant cost savings to the Town. As part of this agreement, all 7 School Department buildings are being fitted with new energy efficient lighting. Under this program, 2,332 fixtures throughout the system will have been retrofitted. Each of the different lighting measures employed have been selected to meet several criteria:

- * Maintain or improve light levels in all areas.
- * Provide maximum energy savings
- * Provide lighting measures that will reduce the labor and material cost for maintaining the lighting systems now and in the future.

It is expected that this project that is a part of the Commonwealth Electrical Rebate Program, which is done at no cost to the Town, will reduce our electricity consumption by approximately 33%.

Fuel Oil Costs

Hot water tanks were installed in the kitchens at East Fairhaven, Oxford, and Wood School in September of 1990 in order to reduce fuel oil costs. As a result of these installations, boiler system operation is now delayed until the heating season resulting in fuel oil savings.

A fixed price for the 1990-91 fiscal year was obtained for fuel oil. As a result of these fixed prices, a reduction in fuel oil costs will be realized for the FY 91 fiscal year.

Energy Management System

Our energy management system with Johnson Controls allows us to continue to save fuel oil dollars. This computerized monitoring system allows us to control our building temperatures during the times in which the buildings are occupied and unoccupied as well.

AREAS OF CONCERN

As education is a function of government, it necessarily follows that it is also a service provided by the government. This service to a very great degree, depends upon personnel to provide the programs that determine its success or failure. Having so stated, it is appropriate to present to the citizens of this community, in detail, the cuts in personnel and the reduction in programs that have occurred over the past two years.

1. A total of 21.5 teaching positions have been eliminated.
2. A total of 19.25 administrative, secretarial, and support positions have been eliminated: (1 Reading Specialist, 1 Special Needs Diagnostician, 1 Nurse, 9 Aides, 2 Secretaries, 1 Maintenance Worker, 4.25 Custodians).
3. All instrumental music programs have been eliminated at the elementary level. The current music program as exists today throughout the system, does so only due to the fact that funds for the entire music supply account were reallocated to rehire one staff member.
4. At the middle school level the reading lab has been eliminated.
5. The Handwriting Program at the elementary level has been eliminated.
6. At the middle school level, the computer lab program has been eliminated.
7. The athletic budget at the high school has been reduced by \$75,000. This program continues to function with the use of student user fees and fiscal support from the All Sports Booster Club.
8. Due to budget constraints, funding for extra-curricular activities at the high school has been greatly reduced and is supported by student user fees.
9. The talented and gifted (SMAT) program at the elementary level has been eliminated.

10. Art, Music, Health, Physical Education offerings have been reduced by 50% at the elementary level.
11. At both the elementary and middle school level, all curriculum supervision and oversight coordinators have been eliminated.
12. The elementary nursing staff has been reduced by 50%.
13. All funding for library books has been eliminated.
14. Annual California Achievement Testing has been eliminated.
15. No funds are allocated for field trips. All must be self-supporting or supported by PTO's, etc.
16. Funds for new and replacement of equipment have been drastically reduced from \$85,000.00 in FY 89 to \$5,873.00 in FY 91.
17. Funds to support programs such as Project MARSH and the Pilgrim and Indian Interpreters have been eliminated on the elementary level.
18. Curriculum — in 1987, a curriculum development format was adopted to allow the school system to review and upgrade curriculum on a scheduled basis. This system was predicated on the availability of funds for curriculum leaders and substitute teachers in order that staff participate in the process.

BUILDINGS AND FACILITIES

During 1988 to 1989, a study group considered, and reported the need, for capital outlay relative to rehabilitating the school buildings; specifically roof and masonry repair. At that time an estimated total cost was \$11,430,000.00. An article was placed on the warrant at Town Meeting, but was rejected.

It is appropriate to note here that nothing has changed ... the conditions continue to worsen and buildings continue to deteriorate. This is not so much a question of maintenance as it is a question of age. Recent information garnered through conversations with different architectural firms indicate that the average life span of a building is fifty to sixty years. To illustrate by example, the School Committee is currently in the process of performing an indepth structural examination of the High School addition south entrance and south facing wall. The preliminary indications are that the construction material originally used has become porous over the years and has allowed water to seep in; to what extent we are not sure at this time. An examination by the Building Committee survey previously mentioned, indicates that similar problems exist throughout the system.

Having so stated, it would be appropriate to restate here the estimated cost projected at that time (February, 1989) to update our physical plants, and also the age (dates of construction) of our existing buildings.

- A. Projected costs as of February, 1989 — \$11,430,000.00.
Bear in mind that this figure is now two (2) years old and inflation costs would have to be added.

- B. Date of construction of existing school buildings
East Fairhaven School — 1931 (addition — 1951) — 60 years
Oxford School — 1896, 1914 (addition — 1951) — 95 years
Rogers School — 1885 (addition — 1960) — 106 years
Wood School — 1965 — 26 years
Middle School — 1958 — 33 years
Fairhaven High School — 1907 (addition — 1931) — 84 years

Given these facts, it is imperative that this community give serious consideration to this problem ... it is not going to go away. Decisions must be made in the near future as to a course of action; rehabilitation of all existing structures, new construction, or purchase of new facilities.

CONCLUSION

As stated in the opening of this report, an attempt was to be made to report to the citizens of the Town of Fairhaven, a realistic view of the state of education in our community.

An objective appraisal of this information must indicate to this community that the Fairhaven Public Schools have experienced, and continue to experience, a fiscal hemorrhaging. We are at a point whereby educational programs and services are at a minimum, and in some cases, totally lacking. If we as a community are to expect our children to be successful as adults and to be competitive with other students throughout the area, state, and country, then we must not allow any further erosion of fiscal support ... the hemorrhaging must stop!

A school system is a reflection of the values of the community which it serves. Fairhaven must establish priorities that reflect these values, and in so doing provide the support for the school system that is appropriate and necessary in today's society.

SCHOOL COMMITTEE

		Term Expires
David G. Bancroft	7 Morey Lane	1993
Charles A. B. Sylvia	42 Briercliff Road	1993
Matthew C. Goulet, Jr Vice-Chairman	39 Jefferson Street	1992
Raymond Sylvia	249 Main Street	1991*
Louis H. Kruger, Jr. Chairman	121 Chestnut Street	1991
Sharon Lee Wood	518 Sconticut Neck Road	1991

*Temporary appointment; election will be held for balance of term which expires in 1992.

FAIRHAVEN PUBLIC SCHOOLS ADMINISTRATIVE STAFF

QUESTION 1

PROPOSED AMENDMENT TO THE CONSTITUTION

Do you approve of the adoption of an amendment to the constitution summarized below, which was approved by the General Court in joint sessions of the House of Representatives and the Senate on December 17, 1987 by a vote of 180 to 6, and on June 11, 1990 by a vote of 186 to 6?

SUMMARY

The proposed constitutional amendment would repeal the constitutional provision that a state census be taken and used as the basis for determining state representative, senatorial and councillor districts. The proposed constitutional amendment would provide that the federal census shall be the basis for determining such districts.

QUESTION 2

LAW PROPOSED BY INITIATIVE PETITION

Do you approve of a law summarized below, on which no vote was taken by the Senate or House of Representatives before May 2, 1990?

SUMMARY

The proposed law would place restrictions on the State's use of consultants. It would place various limits on the amount of profit, overhead charges and expenses that the State could pay consultants. It would limit the duration of consultant contracts to two years and any extension to one year, and it would limit the degree to which such contracts could be changed to require payments in excess of the original contract. The proposed law would limit to \$100,000 the amount the State could pay on a consultant contract with an individual and would require all other consultant contracts in excess of \$25,000 to be sought through competitive bidding. It would prohibit consultants from supervising State employees, and it would limit the use of consultants as substitutes for State employees positions.

In addition, the proposed law would place limits on the total amount of money State agencies, departments and Authorities could spend on consultants each year. Subsidiary provisions would also establish a method for these entities to gradually come into compliance with the new spending limits and would give authority to the State Secretary of Administration and Finance, on request, to permit some spending in excess of the new limits. The proposed law would also require State agencies, departments and Authorities as well as the Secretary of Administration and Finance to submit yearly reports concerning the State's consultant contracts to certain legislative committees and to the Inspector General.

QUESTION 3

LAW PROPOSED BY INITIATIVE PETITION

Do you approve of a law summarized below, on which no vote was taken by the Senate or the House of Representatives before May 2, 1990?

SUMMARY

This proposed law would change the state income tax rate, affect language contained in certain tax provisions, and regulate the setting of fees by state agencies and authorities.

The proposed law would set the state income tax rate on Part B taxable income (in general, earned income) at 4.25% for 1991 and 4.625% for 1992, except for income from unemployment compensation, alimony, Massachusetts bank interest, rental income, pension and annuity income, and IRA/Keogh deductions, which would be taxed at 5%.

The proposed law also provides that the fee imposed by any state agency or authority shall be no more than the fee that was in effect on or before June 30, 1988. The state Secretary of Administration would determine the amount to be charged for any service, registration, regulation, license, fee, permit or other public function, except for the rates of tuition or fees at state colleges and universities or any fees or charges relative to the administration and operation of the state courts. Any increase or decrease in a fee, or the establishment of any new fee, would require the approval of the Legislature. Any increase in a fee would not apply to persons 65 years of age or older. No state agency or authority could collect any fee which exceeds the administrative costs directly incurred by the state agency or authority to produce and process the application for any license or permit. The Secretary of Administration must report information concerning fees to the Legislature on an annual basis.

The proposed law provides that for tax periods commencing on or after January 1, 1991, language in certain provisions of the Massachusetts general laws relating to taxes shall be the same as it was on August 2, 1989, or the effective date of the proposed law whichever language yields less tax revenue. The tax provisions affected include sections relating to the surtax on business income, corporate excise taxes, S corporation taxes, taxes on security corporations, taxes on Part A income (in general, unearned income), bank taxes, excise taxes on alcoholic beverages and cigarettes, excise taxes on deeds, estate taxes, payments to the Commonwealth relating to horse and dog racing, payments to the Commonwealth relating to boxing and sparring matches, taxes on utility companies, gasoline taxes, taxes on insurance companies, excise taxes on motor vehicles, taxes on urban redevelopment corporations, sales tax, use tax, room occupancy excise tax, property taxes, and taxes on proceeds from raffles and bazaars.

The proposed law also contains a provision that if any sections of the law are held to be invalid, all other sections of the law are to remain in effect.

QUESTION 4

LAW PROPOSED BY INITIATIVE PETITION

Do you approve of a law summarized below, on which no vote was taken by the Senate or House of Representatives before May 2, 1990?

SUMMARY

This proposed law would change the state election laws governing the establishment of political parties and the nomination of candidates.

The proposed law would allow voters to register under a political designation other than "Independent" and in addition to the two political parties previously recognized by law (Republican or Democrat), if at least fifty voters request to be permitted to do so. It would allow any group to qualify as a political party under Massachusetts law if at least one percent of the total number of registered voters register to vote using that group's political designation, or if at least three percent of the votes cast at the preceding election for any statewide office were cast for a candidate running under that group's political designation.

The proposed law would set the minimum number of signatures needed on independent or minor party nomination papers for state office at one-half of one percent (1/2%) of the entire vote cast in the previous state election for governor (as compared to 2% as of 1989), and would also establish this number of signatures as the upper limit needed for major party candidates. The proposed law would also permit voters to sign the nomination papers of any number of candidates for the same office, would require that all blank forms to be used for nomination papers and initiative and referendum petitions be no more than 8 1/2" by 14" in size, and would allow signatures to be collected on exact copies of those forms.

Total	1153	1185	1163	1038	1213	1173	6925

QUESTION 5

LAW PROPOSED BY INITIATIVE PETITION

Do you approve of a law summarized below, on which no vote was taken by the Senate or the House of Representatives before May 2, 1990?

SUMMARY

This proposed law would regulate the distribution to cities and towns of the Local Aid Fund, which consists of at least 40% of the revenue generated by the state income, sales, and corporate taxes, as well as the balance of the State Lottery Fund.

Subject to appropriation by the legislature, the State Treasurer would distribute the Local Aid Fund to cities and towns on a quarterly basis, and each city or town would receive at least the same amount of local aid it received in the previous fiscal year unless the total Local Aid Fund decreases.

In fiscal year 1992, if there has been any increase over the fiscal year 1989 fund, half of the increase would be distributed in accordance with the distribution formula used for fiscal year 1989, and half would be distributed to each city and town in proportion to its population.

In each year after 1992, if the fund increases, the excess would be distributed through a formula devised by the state Secretary of Administration and Finance, with the advice and consent of the Local Government Advisory Committee. If the fund decreases after 1992, each town or city will have the amount it receives decreased by the same percentage.

This proposed law also requires that the Treasurer publish an annual report about the Local Aid Fund, that the state Auditor publish an annual audit of the Account, and that the Secretary of Administration and Finance issue to each city and town an estimate of funds it will receive from the Local Aid Fund.

Each city or town would be allowed to bring a lawsuit to force distribution of the account, and would be entitled to a late payment fee if distribution is not timely.

ARTICLE 22 AMENDMENT TO TOWN BY-LAWS

Voted unanimously to amend Chapter XIX "Harbor Pollution Control", Section 5 of the Town's By-laws by adding:

- a In all marinas where ten or more slips are available for boat docking, boat pump-out facilities shall be provided by the marina for use by the patrons. Boat pump-out facilities are those mechanisms which effectively pump wastes from the marine toilet facilities (marine heads) to an approved disposal area such as sewer or approved tight tank. Said facilities are to be under the jurisdiction of the Board of Health and other local and State approving authorities. All existing marinas must have these facilities approved and available for their patrons use within six weeks of the effective date of this By-law amendment. (article amended on floor-change from six months to six weeks)

ARTICLE 23 WATER MATTERS

Washington Street Water Tank:

- a. Replacement-Voted indefinite postponement.

- A. PHASE II BOUNDED AS FOLLOWS:
Area 1 (to complete)
South Street on the South
Main Street on the West
Washington Street on the north
Laurel Street on the east.

B. PHASE III — Voted indefinite postponement.

ARTICLE 27 TOWN PLANNER

Voted indefinite postponement.

ARTICLE 28 SPECIAL LEGISLATION: RECALL OF ELECTED OFFICIALS

Voted to authorize the Board of Selectmen to petition the General Court of the Commonwealth to enact special legislation authorizing the Town of Fairhaven to establish a procedure for the recall of elected officials by enactment of a by-law in the following form:

RECALL OF ELECTED OFFICIALS

A. Application-Any person who holds an elected town office with more than six months remaining of the term of office on the date of filing of the affidavit referred to in (B), below, may be recalled from office by the voters, in the manner provided in this section.

B. Recall Petitions-Twenty-five or more voters may file with the Town Clerk an affidavit containing the name of the Officer whose recall is sought and a statement of the grounds upon which the petition is based. The Town Clerk shall deliver to the said voters petition blanks demanding said recall, printed forms of which he shall keep available. The blanks may be completed by writing or typewriting; they shall be addressed to the Board of Selectmen; they shall contain the names of the persons who filed the affidavit and the grounds for recall as stated in the affidavit they shall be dated and signed by the Town Clerk. A copy of the petition shall be kept on file in the office of the Town Clerk in a record book maintained for that purpose. The recall petitions shall be returned and filed in the office of the Town Clerk within fourteen days following the date the petitions were issued, signed by at least ten percent of the total number of registered voters duly recorded on the registration list of the Town Clerk as of the preceding town election.

The Town Clerk shall, within twenty five hours following such filing, submit said petitions to the registrars of voters who shall within seven days certify thereon the number of signatures which are names of voters.

C. Recall Election-If the petition shall be certified by the registrars of voters to be sufficient, the Town Clerk shall forthwith submit the same to the Board of Selectmen. Upon its receipt of the certified petition, the Board of Selectmen shall within forty-eight hours give written notice of said petition and certificate to the person whose recall is sought. If said officer does not resign his office within five days following delivery of said notice, the Board of Selectmen shall order an election to be held not less than thirty-five nor more than sixty days after the date of the registrars certificate of the sufficiency of the petition. If however, another town election is to occur within sixty days after the date of the certificate, the Board of Selectmen shall hold the recall election on the date of said other town election. If a vacancy occurs in the office after a recall election has been ordered, the election shall nevertheless proceed as provided in this section, but only the ballots for candidates need be counted.

D. Nomination of Candidates-An Officer whose recall is sought may not be a candidate to succeed himself at the recall election. The nomination of candidates, the publication of the

warrant for the recall election, and the conduct of the same shall be in accordance with the provisions of other laws relating to elections, unless otherwise provided in this section.

E. Propositions on Ballot-Ballots used at recall election shall state the following propositions in the order indicated:

For the recall of (name of officer)
Against the recall of (name of officer)

Adjacent to each proposition there shall be a place to vote for either of the said propositions. After the propositions shall appear the word “candidates” and the names of candidates arranged alphabetically, by surname. If a majority of the votes cast upon the question of recall is in the affirmative, the candidate receiving the highest number of votes shall be declared elected. If a majority of the votes on the question is in the negative, the ballots for candidates need not be counted except as provided (C) above.

F. Officeholder — The incumbent shall continue to perform the duties of his office until the recall election. If he is not recalled in the election he shall continue in office for the remainder of his unexpired term, subject to recall as before, except as provided in this section.

If the Officer is recalled in the election, he shall be deemed removed upon the qualification of his successor who shall hold office during the unexpired term. If the successor fails to qualify within five days after receiving notification of his election, the incumbent shall thereupon be deemed removed and the office vacant.

G. Repeat of Recall Petition-No recall petition shall be filed against an Officer within three months after he takes office or in the case of an Officer subjected to a recall election and not recalled thereby until at least six months after the election at which his recall was submitted to the voters.

ARTICLE 29 STABILIZATION FUND

Voted to pass over.

ARTICLE 30-SPECIAL LEGISLATION TO STRIKE PORTION OF B.P.W. SPECIAL LEGISLATION

Voted to authorize the Board of Selectmen to petition the General Court of the Commonwealth to enact special legislation amending Chapter 722 of the Acts of 1968, entitled “An Act Establishing a Board of Public Works in The Town of Fairhaven” by deleting from Section Three, thereof the fourth sentence which reads as follows: “During his tenure he shall hold no elective or other appointive office, nor shall he be engaged in any other business or occupation; and inserting in lieu thereof the following: “During his tenure he shall hold no elective office nor shall he be engaged in any other business or occupation.”

ARTICLE 31 ROAD WORK

a. Daniel Street-Voted the sum of \$45,000.00 to finish reconstructing, hard-surface

- and install drainage on Daniel Street from Alden Road to Main Street.
- d. New Boston Road-Voted the sum of \$35,000.00 to finish reconstructing, hard-surface and install drainage on New Boston Road from Vincent's Farm, 2,500' more or less to the north.
- f. Sconticut Neck Road-Voted the sum of \$47,000.00 to reconstruct, hard-surface and install drainage on Sconticut Neck Road from Nobska Avenue to Mary Street.

ARTICLE 32 COMMONWEALTH ELECTRIC EASEMENT

Voted to authorize the Selectmen to execute and deliver to Commonwealth Electric Company an easement granting to said Commonwealth Electric Company the perpetual right and easement to locate, erect, construct, reconstruct, install, operate, maintain patrol, inspect, repair, replace, alter, extend or remove one or more lines for the transmission and/or distribution of electricity for light, heat and/or power including the installation and maintenance of all appurtenant fixtures necessary for the purpose stated herein, along, upon, under, over and across that certain portion of real property acquired by the Town of Fairhaven by virtue of an order of taking dated May 3, 1954 from the New York, New Haven and Hartford Railroad Company recorded in the Bristol County (S.D.) Registry of Deeds in Book 1114, Page 185, said property being more particularly described and known as lot #6 on the Town of Fairhaven Assessor's Map #28 as of the year 1990.

ARTICLE 33 HAZARDOUS WASTE CLEAN-UP DAY

Voted the sum of \$14,000.00 for a Fairhaven Household Hazardous Waste Clean-up in the Spring of 1991 and to establish from the same funds an Emergency Hazardous Waste Clean-up Fund which will be under the direction of the Board of Selectmen.

ARTICLE 34 STREET LIGHTS

Voted indefinite postponement on the following street lights:

- a. Elizabeth Street
- b. Harding Road
- c. New Boston Road

ARTICLE 35 STREET ACCEPTANCE — PARK DRIVE

Voted the sum of \$1.00 and to accept the layout of the following described area as a public way:

Description of Park Drive as shown on a plan entitled "Lambeth Warehouse Park" revised November 26, 1984, Scale 1"=40', E.J. Flynn Engineers, Inc. Middleboro, Ma.

Beginning at the southwest corner thereof at the point of intersection of the southwest corner of Park Drive and the northerly line of Lambeth Park Road; thence

Easterly and northerly by Lot 2 on the hereinafter-mentioned plan in an arc with a radius of thirty (30) feet, forty-seven and 12/100 (47.12) feet; thence

North 00 degrees 34 minutes 47 seconds East by said Lot 2, two hundred seventeen and 97/100 (217.40) feet to a point; thence

Northerly and northwesterly by said Lot 2, in an arc with a radius of thirty (30) feet, twenty-seven and 40/100 (27.40) feet to a point; thence

Northwesterly and northerly by said Lot 2, in an arc with a radius of sixty (60) feet, fifty-four and 04/100 (54.04) feet to a point; thence

southeasterly, southerly and southwesterly, by Lot 4 on the hereinafter-mentioned plan, in an arc with a radius of sixty (60) feet, one hundred three and 69/100 (103.69) feet to a point; thence

Northeasterly, easterly and southeasterly by Lot 3 on the hereinafter mentioned plan, in an arc with a radius of sixty (60) feet, one hundred forty and 00/100 (140.00) feet to a point; thence

Southeasterly, southerly and southwesterly, by Lot 4 on the hereinafter-mentioned plan, in an arc with a radius of sixty (60) feet, one hundred three and 69/100 (103.69) feet to a point; thence

Southwesterly and southerly by said Lot 4, in an arc with a radius of thirty (30) feet, twenty-seven and 40/100 (27.40) feet to a point; thence

South 00 degrees 34 minutes 47 seconds West by said Lot 4, thirty-two and 84/100 (32.84) feet to a point, thence

South 00 degrees 34 minutes 47 seconds West by Lot 5 on the hereinafter-mentioned plan, one hundred eighty-five and 12/100 (185.12) feet to a point; thence

Southeasterly and easterly by said Lot 5 in an arc with a radius of thirty (30) feet, forty-seven and 12/100 (47.12) feet to the northerly line of Lambeth Park Road.

ARTICLE 36 STREET ACCEPTANCE — LAMBETH PARK ROAD

Voted the sum of \$1.00 and to accept the layout of the following described area as a public way:

Description of Lambeth Park Road as shown on a plan entitled "Lambeth Warehouse Park" revised November 26, 1984, Scale 1"=40', E.J. Flynn Engineers, Inc. Middleboro, Ma.

Beginning at the southwest corner thereof at a point in the east line of Head of the River Road, so-called, now known as Alden Road;

Thence northwesterly by the easterly line of said Alden Road, in an arc with a radius of 2,770.00 feet, forming the northeast junction of Lambeth Park Road and Alden Road seventy-two and 13/100 (72.13) feet to a point; thence

Southeasterly and easterly by Lot 1 on the hereinafter-mentioned plan, in an arc with a radius of thirty (30) feet, forty one and 38/100 (41.38) feet to a point; thence

North 89 degrees 38 minutes 23 seconds East by said Lot 1, three hundred fifteen and 47/100 (315.47) feet to a point; thence

North 89 degrees 25 minutes 13 seconds east by Lot 2, on the hereinafter-mentioned plan one hundred sixty-four and 08/100 (164.08) feet to the southwesterly corner of Park Drive; thence

Beginning again at the southwest corner thereof at a point in the east line of Head of the River Road, so-called, now known as Alden Road,

North 89 degrees 38 minutes 23 seconds East by land now or formerly of Pequod Corporation, three hundred twenty-nine and 10/100 (329.10) feet to a point; thence

North 89 degrees 38 minutes 23 seconds East by said land of Pequod Corporation, four hundred fifty-seven and 71/100 (457.71) feet to a point; thence;

North 87 degrees 53 minutes 47 seconds East by said land of Pequod and land now or formerly of Art Realty Company, one hundred forty (140) feet to a point; thence

North 6 degrees 11 minutes 32 seconds West by Lot 7 on the hereinafter-mentioned plan, sixty-

nine and 38/100 (69.38) feet to a point; thence

Northwesterly and westerly by said lot 7, in an arc with a radius of sixty (60) feet, seventy and 62/100 (70.62) feet to a point; thence

Westerly and southwesterly by Lot 6 on the hereinafter-mentioned plan in an arc with a radius of sixty (60) feet, ninety-six and 04/100 (96.04) feet to a point; thence

Southwesterly and westerly by said Lot 6, in an arc with a radius of thirty (30) feet, thirty-nine and 75/100 (39.75) feet to a point; thence

North 89 degrees 25 minutes 13 seconds West by said Lot 6, forty-eight and 95/100 (48.95) feet to a point; thence

North 89 degrees 25 minutes 13 seconds West by Lot 5 on the hereinafter-mentioned plan, one hundred twenty and 00/100 (120.00) feet to the southeasterly corner of Park Drive.

ARTICLE 37 STREET ACCEPTANCE — DUDLEY STREET

Voted to pass over.

ARTICLE 38 STREET ACCEPTANCE — PETER AVENUE

Voted to pass over.

ARTICLE 39 STREET ACCEPTANCE — WOODSIDE AVENUE

Voted to pass over.

ARTICLE 10 STREET ACCEPTANCE — WOODSIDE AVENUE

Voted to pass over.

ARTICLE 11 WATER SUPPLY BY-LAW

Voted unanimously for the Town to amend its by-laws by adding thereto a new chapter to be entitled “Water Supply By-Law”, Chapter 32

Section 1: Authority

This by-law is adopted by the Town under its home rule powers, its police powers to protect public health and welfare and its specific authorization under M.G.L. c.40 ss21 and 21D.

Section 2: Purpose

The purpose of this by-law is to protect, preserve, and maintain the public health, safety and welfare whenever there is in force a state of water supply emergency by providing for enforcement of any duly imposed restrictions, requirements, provisions or conditions imposed by the Town or by the Department and included in the Town’s plan approved by the Department of Environmental Protection to abate the emergency.

Section 3. Definitions

Enforcement authority shall mean the Town’s Board of Public Works, the Board of Health, the Town Police, special police, and any other locally designated body or official having police powers.

State of water supply emergency shall mean a state of water supply emergency declared by the Department of Environmental Protection pursuant to G.L. c. 21 G, G.L. C111 s 160, or by the Governor.

Section 4:

The following shall apply to all users of water supplied by the Town:

Following notification by the Town of the existence of a state of water supply emergency, no person shall violate any provision, condition, requirement or restriction included in a plan approved by the Department of Environmental Protection which has as its purpose the abatement of a water supply emergency. Notification of any provision, restriction, requirement, or condition with which users of water supplied by the Town are required to comply to abate a situation of water emergency shall be sufficient for purposes of this by-law if it is published in a newspaper of general circulation within the Town or by such other notice as is reasonably calculated to reach and inform all users of the Town supply.

Section 5: Penalty

Any person or entity who violates this by-law, shall be liable to the Town in the amount

of \$50.00 for the first violation and \$100.00 for each subsequent violation which shall inure to the Town for such uses as the Board of Public Works may direct. Fines shall be recovered by indictment or on complaint before the District Court or by non-criminal disposition in accordance with Section 21D of Chapter 40 of the General Laws. Each separate instance of non compliance following the issuance of any warning or citation pursuant to this section shall constitute a separate violation.

Section 6: Right of Entry.

Agents of the enforcement authority may enter any property for the purpose of inspecting or investigating any violation of this by-law or enforcing against the same.

Section 7: Severability

The invalidity of any portion of provisions of this by-law shall not invalidate any other portion, provision or section hereof.

ARTICLE 12 OTHER BUSINESS

None

Voted to adjourn at 1:10 p.m. Sine Die.

Elaine Rocha
Town Clerk

**SPECIAL TOWN MEETING
TUESDAY, FEBRUARY 27, 1990
WALTER SILVEIRA AUDITORIUM
ELIZABETH HASTINGS MIDDLE SCHOOL**

Town Meeting Members Present 201 — Quorum Required 100

The meeting was called to order by the moderator at 7:00 p.m.

The National Anthem was played.

The Moderator introduced those seated on stage.

The Moderator stated that the warrant had been properly served and that a quorum was present.

Voted that the reading of the warrant and the return of service be omitted.

Voted that the Moderator be relieved from reading each article in its entirety and that he be allowed to refer to the articles by number and title only.

Voted that all appropriations be from surplus revenue unless otherwise specified.

ARTICLE I AMENDMENT TO TOWN BY-LAWS — LICENSES AND PERMITS OF DELINQUENT TAXPAYERS

Voted unanimously to adopt the following by-law:

“Chapter XXXI Licenses and Permits of Delinquent Taxpayers

The Town of Fairhaven may deny any application for, or revoke or suspend any local license or permit including renewals and transfers issued by any board, officer or department for any person, corporation or business enterprise who has neglected or refused to pay any local taxes, fees, assessments, betterments or any other municipal charges under the terms provided in Sections (a)-(d), below, except that this chapter shall not apply to the following licenses and permits: open burning; section thirteen of chapter forty-eight; bicycle permits; section eleven A of chapter eighty-five; sales of articles for charitable purposes, section thirty-three of chapter one hundred and one; children work permits, section sixty-nine of chapter one hundred and forty-nine; clubs, associations dispensing food or beverage licenses, section twenty-one E of chapter one hundred and forty; dog licenses, section one hundred and thirty-seven of chapter one hundred and forty; fishing, hunting, trapping license, section twelve of chapter one hundred and thirty-one; marriage licenses, section twenty-eight of chapter two hundred and seven and theatrical events, public exhibition permits, section one hundred and eighty-one of chapter one hundred and forty.

(a) The tax collector or other municipal official responsible for records of all municipal taxes, assessments, betterments and other municipal charges, hereinafter referred to as the tax collector, shall annually furnish to each department, board, commission or division, hereinafter referred to as the licensing authority that issues licenses or permits including renewals and transfers, a list of any person, corporation, or business enterprise, hereinafter referred to as the party, that has neglected or refused to pay any local taxes, fees, assessments, betterments or other municipal charges for not less than a twelve month period, and that such party has not filed in good faith a pending application for an abatement of such tax or a pending petition before the appellate tax board.

(b) The licensing authority may deny, revoke or suspend any license or permit, including renewals and transfers of any party whose name appears on said list furnished to the licensing authority from the tax collector; provided, however, that written notice is given to the party and the tax collector, as required by applicable provisions of law, and the party is given a hearing, to be held not earlier than fourteen days after said notice. Said list shall be prima facie evidence for denial, revocation or suspension of said license or permit to any party. The tax collectors shall have the right to intervene in any hearing conducted with respect to such license denial, revocation or suspension. Any findings made by the licensing authority with respect to such license denial, revocation or suspension shall be made only for the purposes of such proceeding and shall not be relevant to or introduced in any other proceeding at law, except for any appeal from such license denial, revocation or suspension. Any license or permit denied, suspended or revoked under this section shall not be reissued or renewed until the license authority receives a certificate issued by the tax collector that the

party is in good standing with respect to any and all local taxes, fees, assessments, betterments or other municipal charges, payable to the municipality as the date of issuance of said certificate.

ARTICLE 2 WATER SUPPLY BY-LAW

Voted to table.
